Subject: AdvancED Engagement Review – Final Report

Please include time for me to share the AdvancED Engagement Review Team's final report on the June 10, 2019, Board Committee of the Whole agenda.

As you remember, our District Accreditation Engagement Review was from March 10 through 13, 2019, during which the team visited schools, interviewed stakeholder groups and analyzed our assessment of where we are compared to AdvancED's Standards. The final report shares the areas that they have deemed as Excelling, Meeting, Approaching and Need to Improve. The report also shares the averages from the ELEOT observations. I will walk the Board of Education through the report and share an overview of the results.
