

Memorandum

To: Board of Managers
From: Jonny F. Hipp, Administrator
Date: June 23, 2016
Re: Intergovernmental Transfers for Medicaid Network Access Improvement Program (NAIP)

This provides a very brief update on the Hospital District's activities, to date, relating to Intergovernmental Transfers (IGT) for the Medicaid Network Access Improvement Program (NAIP) and completion of the related NAIP IGT Responsibility Agreement with the Texas Health and Human Services Commission (HHSC) for the term September 1, 2016 – August 31, 2017.

On May 25, 2016, the Board authorized the Administrator to execute a NAIP IGT Responsibility Agreement to facilitate CHRISTUS Spohn Hospital Corpus Christi's participation in that managed care organization-funded supplemental payment program; CHRISTUS Spohn is the only local hospital that qualifies for the NAIP at this time. As of this date, the Hospital District continues to await certain HHSC-provisioned IGT amounts, timetables, and other similar information necessary to complete the proposed NAIP IGT Responsibility Agreement.

In the event the above information becomes available to the Hospital District prior to the June 28, 2016 Board of Managers meeting, we plan to present the final draft of the NAIP IGT Responsibility Agreement to the Board then as requested.

Jonny F. Hipp
