Custodial

Custodial Positions

Interviews were conducted at Illinois Valley High School to fill the Night Custodian position. We had a number of well qualified applicants. It was difficult to choose just one.

Jason Davis has been selected to fill the position. Jason has only been subbing for us only a short period of time. During that time he has made a great impression and has done a fantastic job. We welcome him to the district.

We are currently still working on filling the open position at Fort Vannoy. We will keep you updated with our progress.

The custodial staff is gearing up for spring break projects. This is a great opportunity for us to get some projects completed along with some custodial training.

Most of the crews spring break will be focused on deep cleaning carpets, scrubbing and refinishing hard surface floors along with deep clean of offices and class rooms. These breaks during the school year are important to our asset preservation. It allows the staff to get those high traffic carpet areas deep cleaned and tile areas protected with new finish, which in-turn extends the life of the flooring. There truly is more to custodial then just cleaning and presenting a nice appearance.

We will also be taking the time to hold training and introduce the next process in our ARAMARK Quantum Leap Cleaning System.
