LAGRONE ADVANCED TECHNOLOGY COMPLEX

Welding instructor Rebecca Hendricks highlighted in Educator Spotlight

Rebecca Hendricks, welding instructor at the LaGrone Advanced Technology Complex, is taking welding to another level. The ATC Welding program consistently produces creative projects that are used by the district and community. Students in the advanced class are among the best in the country in their craft, as proven by their victories in the national “A Cut Above” welding contest, which highlights quality and skill by students at the high school and college level. This success has helped Ms. Hendricks a turn in the Denton ISD Educator Spotlight.
