

FIS School Board Report October 20th, 2025

Continuing the Start of the School Year

The start of the school year has come and went! We are moving into a good "groove" for the year. The building is moving along and students and staff are getting into their routine. We will continue this great start throughout the school year!

Homecoming Week

Homecoming week was a success! A huge thank you to all of our students, staff, and families that made it possible. It was great to see so much fun, energy, and pride for our school. It's fantastic to be able to make these memories for our students. Lastly, the FIS homecoming assembly was a huge success!

Fall Activities

Moving through the fall, it has been great to see our students on the field, court, or pool this fall! We are here to celebrate our academic success but also our student's athletic successes as well. Congratulations to all of our fall athletes!

STAR Testing

Our first round of STAR testing is complete. Students take the STAR reading and math test each trimester to measure progress in both areas. From this, we use this data to help support students that may need more support in either area.

Conferences

Conferences at the Intermediate school will take place this week on the 22nd and 23rd. Teachers will be working with our families to show all of the progress our students are making. This is a great time to connect with our teachers to continue the great start to the school year.
