

ADMINISTRATION RECOMMENDATION/REPORT

The District President recommends the Board of Trustees approves a contract for a Continuing Education Registration System from Modern Campus for the Technology Services Department.

BACKGROUND

The Continuing Education Department is seeking to replace its legacy, and soon to be unsupported, course registration application. The Modern Campus solution, called Destiny One, will provide an improved user experience for registering for CE courses. Modern Campus is also a Workday preferred partner for CE registration. The Destiny One application will facilitate user registration and provide a “shopping cart” experience for continuing education/workforce development registration.

Request For Proposal (RFP) Number 4533 was issued to procure a Continuing Education Registration System. One response was received. The response submitted by Modern Campus was evaluated by a team consisting of staff from Technology Services, Academic Affairs/Workforce Development, and VP Provost – Technical Campus. The proposal submitted by Modern Campus is being recommended as the best value to the District.

IMPACT OF THIS ACTION

This online registration software system for the College will replace the current registration system which will no longer be supported after September 2024. The use of this registration system will allow flexibility for Continuing Education to improve the ease of registration and provide integrated services with Workday.

BUDGET INFORMATION (INCLUDING ANY STAFFING IMPLICATIONS)

This purchasing request is for spend authorization of \$877,877 for five (5) years. Year one (1) will be funded from the Workday project budget (\$248,688) and years 2-5 will be funded from the Continuing Education operating budgets (\$639,189), pending Board approval.

MONITORING AND REPORTING TIMELINE

The contract term is April 1, 2023 through March 31, 2028.
