

Child Nutrition Report
By Lynne Keenan

The Nutrition Department ended the Summer Lunch Program on August 13; we had a good summer.

A group of students and their supervisor came in from the Vision Group and cleaned up trash and needles at the Mobile Site area. The Vision Group comes into our community every year and help clean, do a lot of construction work, work in the school's Community Garden, and they do a variety of other things as well.

Child Nutrition is not going to be able to open our Supper Program until we have more cooks. As of now, we have only two (2) cooks per building; this is going to be tough on our staff.
