Re: District Waste Removal Bid Results

I would like to discuss the recommendation to award the Districtwide Waste Removal at the Committee of the Whole meeting on Monday, May 22, 2017. Due to the fact there was not a priorly scheduled Study Session, this will be the first discussion of this topic with the Board.

Our current contract is expiring and our current vendor did not submit a bid for renewal. Three companies offered bids to the District, with Detroit Disposal and Recycling being the lowest responsible bidder for waste removal and recycling at approximately \$50,000 annually. Mr. Harry Lau has done due diligence with respect to Detroit Disposal and Recycling, including meeting and interviewing the owner and checking references. This recommended contract will be for one year, with two one-year options. Funds for this service would be from the General Fund.

Please include this item on the upcoming agenda.
