Re: Change Order for Nova Environmental, Inc.

We would like to discuss a change order for Nova Environmental, Inc. at the Building and Site Committee meeting on Monday, January 11, 2016. Nova Environmental, Inc. is the Environmental Consultant that has provided the oversight, bid specifications and other professional services related to asbestos or other environmental issues during construction on the Phase I and Phase II K-4 elementary school projects. We have been pleased with their services to date and the change order will allow us to continue with their services for the Phase III K-4 elementary school projects.

Plante Moran Cresa will be at the meeting to review the request in detail and be available for discussion and questions. Thank you very much.
