Having been in education my whole life as a teacher, counselor and wife of a president of a college, I have always known the important role education plays in the lives of people. Having served on ESC-20 for two years have helped me realize and re-affirm how important service centers are in providing the needs and services our educational system so direly needs. I am committed to give of my time and educational experience to serve as a member of the board. What would be your contributions as a Board member? Having been in the education field for many years and having had the experience of serving on other boards have taught me to always have an open mind. This experience has also helped me realize that a board member's role is that of teamwork and support to insure that we continue the great services we provide to all area school districts.
