

BOARD MEETING MEMORANDUM

Board Meeting Date: April 7, 2026

From: Aron Borowiak, Superintendent
Dr. Maria Treto-French, Assistant Superintendent

Re: New Early Learning Center Facility Updates

Agenda Location: Information/Discussion

Rationale:

As we continue planning for the new Early Learning Center within the context of the District's Master Facilities Plan, the next phase of work is to finalize the building design.

This phase provides an opportunity to carefully review the current design and consider potential adjustments that align with the established project budget and overall district priorities.

Areas for consideration may include:

- Total square footage
- Geothermal
- Number and type of instructional and support spaces
- Shared and flexible-use areas
- Non-essential or "nice-to-have" features

Any adjustments made to the design may help maintain the project within budget and preserve the District's ability to complete other planned facility improvements. Administration will work with the Board and design team to review options, identify potential tradeoffs, and support informed decision-making as we move toward finalizing the design.

Our goal is to ensure the Early Learning Center meets the needs of our students and staff while remaining aligned with the District's broader facility plan and financial commitments.

Recommendation/Motion:

Informational.
