Re: Summer 2018 Renovations - 2013 Bond

I am requesting the addition of the agenda item, Summer 2018 Renovations, at the next Building and Site Committee meeting on Monday, September 11, 2017, in order to discuss securing the professional services of George W. Auch Company as Construction Manager and the professional services of Arch Environmental Group as Environmental Consultant.

As a reminder, the District has previously contracted with Auch and Arch in these roles and for previous phases of construction, and we look forward to extending our working relationship with them for the Phase V construction projects. Summer 2018 Renovations are scheduled to take place at Buchanan Elementary, Jackson Center, Livonia Career Technical Center and Webster Elementary. Of course, Churchill High School renovations will continue during the Summer of 2018 as well.

As always, please let me know if there are any additional questions.
