Summary: **The Texas Academic Performance Report (TAPR) is published annually and includes student performance on the previous school year's state STAAR assessment, disaggregated by various student groups. The statute requires that each school district's Board of Trustees must hold a public hearing to discuss the district's annual Texas Academic**

Performance Report (TAPR). Commissioner rule designates that this hearing for public discussion of the TAPR report must be held within 90 calendar days of the report's release. Within two weeks following the public hearing, each district must widely publish its annual report, including posting the report on the district website and providing copies at each campus as well as at the Central Office location. These requirements ensure transparency regarding academic performance and school ratings (A–F system).

Background Information: The Texas Academic Performance Reports (TAPR) pull together a wide range of information on the performance of students in each school and district in Texas every year. Performance is shown disaggregated by student groups, including ethnicity and socioeconomic status. The reports also provide extensive information on school and district staff, programs, and student demographics.
