Action

Background Information:

At a previous meeting, we conducted a first reading of Policy Update 87. It is now appropriate to adopt the local policies. Remember that we do not approve the legal policies, as they are only recitations of law.

Administrative Consideration:

We have reviewed the changes to local policies that TASB has recommended and found them all to be in order. If you have questions about any other policies, please give us a call before the meeting so that we can gather information for your consideration.

Administrative Recommendation:

We recommend that the board add, revise, and delete local policies, as recommended by TASB Policy Service according to the Instructions Sheet for TASB Localized Policy Manual Update 87.
