Recommendation:	Approve as Submitted
-----------------	----------------------

Consideration and possible approval for the purchase of new hot food wells at McCowan Middle School.	Justification: The existing hot food wells were "wet" wells and over time they have rusted through and will not hold water. Moving to dry wells will prevent this failure from happening in the future. These wells are critical to the cafeteria being able to serve safe and nutrition lunches to our scholars. Three quotes were received from vendors. We are asking for the board's consideration and possible approval of this item.
