

# Talented and Gifted (TAG) Equity in Identification

Mrs. Erin Slifer

# Table of contents

**01** Equity in Talented & Gifted Defined

**02** Goal

**03** Current Statistics in the underrepresentation of diverse groups in TAG programs

**04** Defining our Current Process

**05** Defining Processes to make Identification more equitable

# 01

## Equity in Talented & Gifted Defined

# Defining Equity within TAG Identification

## Equity

Fair identification practices that utilize multiple measures, while considering the diverse population of our school.

# 02

## Equity Identification Goal

# Goal

Evaluate our identification process to make it more inclusive and equitable for our English Language Learners and twice exceptional students.

# 03

## **Current Statistics in the underrepresentation of diverse groups in TAG programs**

# Overlooked

Blumen (2021) states, "However, disparities in academic achievement among the highly able students show that students coming from **culturally/linguistic diverse contexts are often overlooked for programs for the high achievers**, and **inequities in the screening and identification procedures for students living in rural** areas post new challenges on the fairness of the processes" (p. 27).

# Overlooked

Naglieri & Ford (2003), “Nationally, Hispanics/Latinos are about **50% less likely than White students to be identified** for gifted programs (as cited by Felder et al., 2015, p. 28).

Ford (2013) posits that Hispanics/Latinos “**make up about 20% of the public school population**, but ‘much less’ of the population of gifted programs—based on data from the Office for Civil Rights, she estimated the **underrepresentation of this population to be close to 40%** (as cited by Felder et al., 2015, p. 28).

04

# Defining our current process

Current Reality

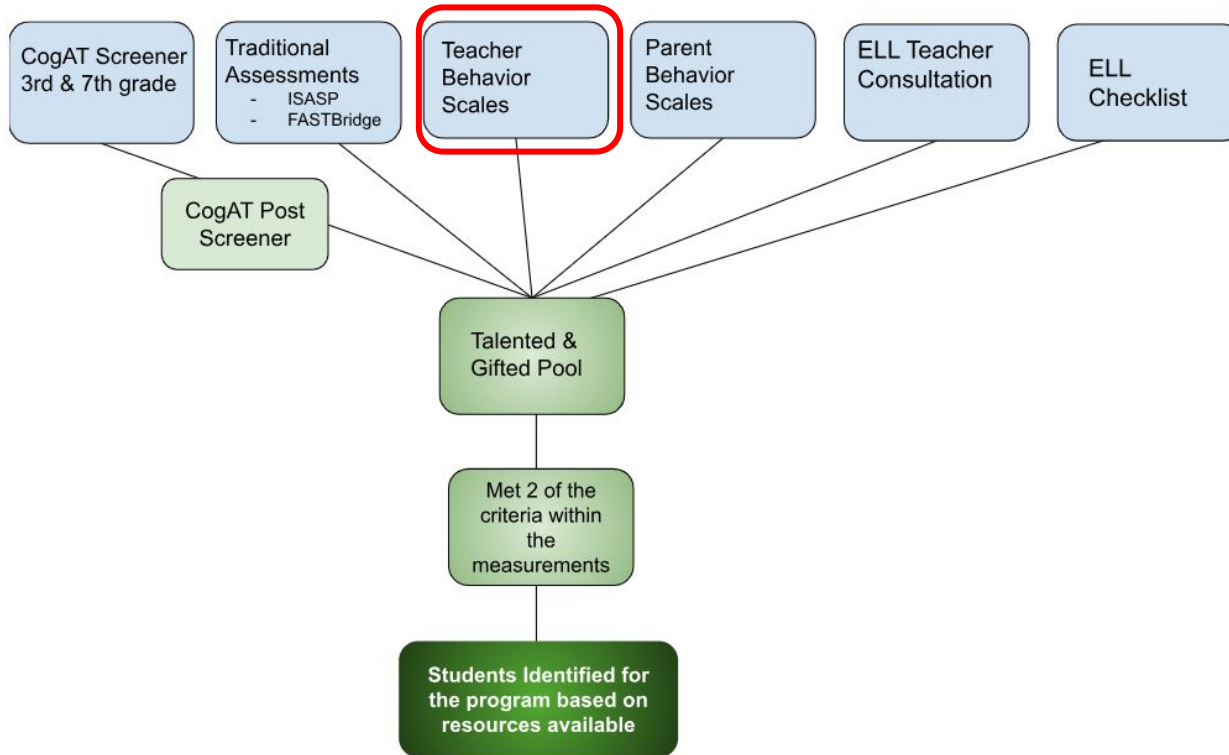

# **TAG DEMOGRAPHICS**

TAG DEMOGRAPHICS will get from Superintendent Peter

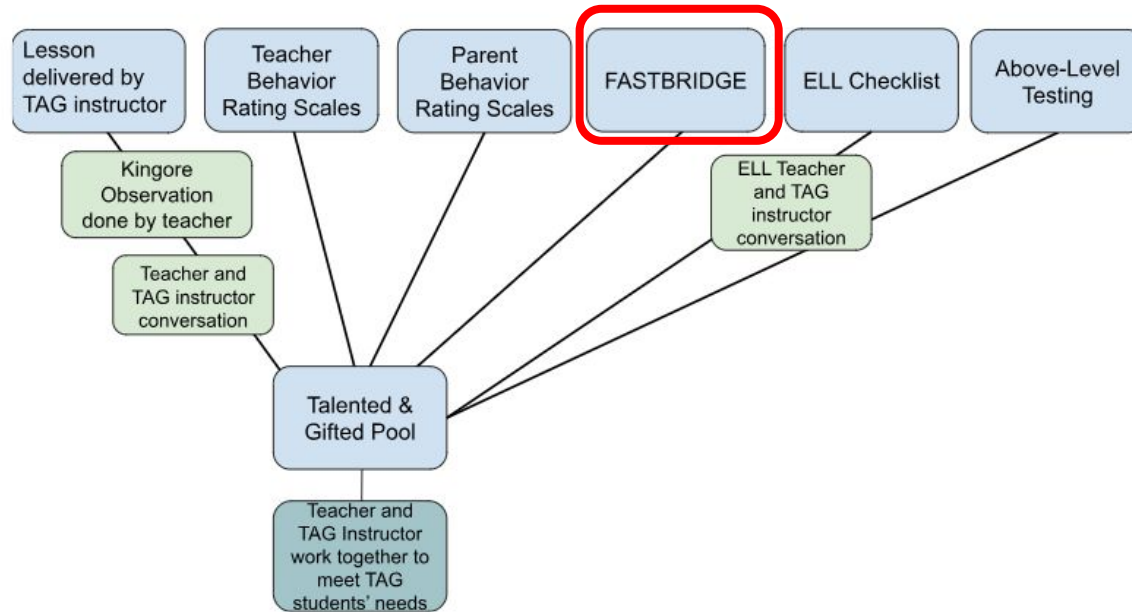

# Current Process

## ELL Identification Program

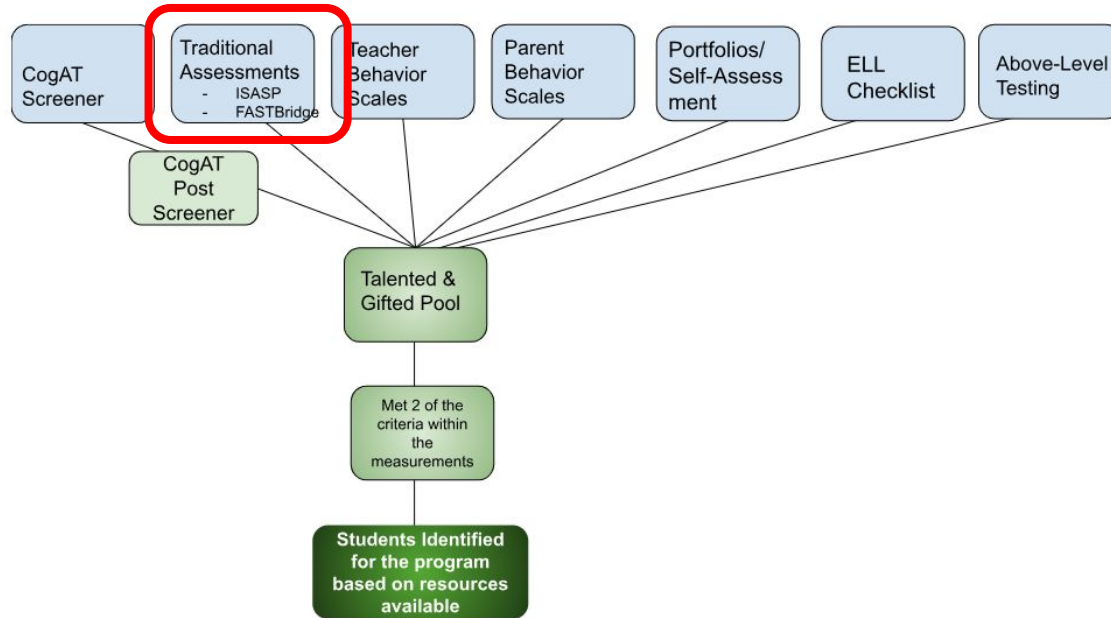

# Current Process

## Kindergarten through 5th Grade

# Current Process

6th through 12th Grade

# Current Reality Equitable Pieces

- Local Norms
- Universal Screening, CogAT grades 3rd and 7th
- Teacher nomination
- Parent nomination

**05**

**Defining Processes to  
make Identification  
more equitable**

# Early Identification/ Qualitative Data

- Identify students earlier than 3rd grade
  - As early as Pre-K
- Whole class lessons (K-3 to start) a.k.a frontloading
  - Gen. Ed teacher as observer and collaborator
  - Primary Education Thinking Skills (PETS) curriculum

# Qualitative Data

- Student work samples
- interviews with students, parents, etc.
- direct observations of student
- student portfolios

# Teacher Scale for Rating Students' Creativity (TRSC)

## *Teacher Scale for Rating Students' Creativity in Elementary School (TRSC)*

1. Writes and tells stories, solutions and ideas stemming from a great imagination.
2. During explanations in class: Is he/she able to easily suggest examples that do not occur to the majority of his/her classmates?
3. He/she knows how to end stories and narrations with originality and making sense.
4. Is able to provide a large number of unusual and intelligent ideas and solutions to topics and problems presented in class.
5. In his/her drawings and art work, he/she shows an uncommon originality.
6. Shows a preference for the activities that require him/her to investigate, experiment, and discover information.
7. Shows a lot of curiosity about knowing new things and frequently asks these type of questions: Why don't we do it now?; I have an idea, etc.
8. Can have unexpected opinions and defend unconventional points of view.
9. It is possible to note in him/her a clear tendency toward intellectual playfulness, and he/she fantasizes, imagines, and manipulates ideas in a spontaneous way.
10. He/she shows a subtle sense of humor and sees situations as humorous that would not seem so to others.
11. He/she seems comfortable in free or not very structured class activities in which the initiative of the students determines the plan to follow.

# Potential Based

- not innate
- abilities developed over time with exposure to the “right” opportunities

# Community Connection

- connect and partner with parents
- connect and partner with the community

# Steps towards Equity

1. **Potential Based Mindset**
2. **Qualitative Data Driven**
  - a. whole-class instruction (K-3)
  - b. PETS data collection
  - c. student work samples
3. **Community and Parent Connection**
  - a. Build resources
  - b. connect and partner
4. **TRSC Tool**

# Thanks!

## Do you have any questions?
