Pre-School Special Education

The Woodbridge Board of Education (Board) recognizes the value of special education and its responsibility in ensuring that all resident preschool children with disabilities have the opportunity to participate in special programs and services from which they may benefit. The Board shall maintain an early intervention program for preschool-aged children identified through the "Birth to Age Three" screening process under regulations imposed by the Individuals with Disabilities Act (IDEA) which identifies children with special education needs or developmental delays.

The District's program shall be based upon the "reverse mainstreaming model" which maintains an annual designated number of non-disabled (general education) students who serve as role models for the students with identified special needs. The Director of Special Services is responsible to coordinate and evaluate the program annually in order to make recommendations to the Superintendent of Schools.

The Board authorizes the Superintendent of Schools to establish administrative practices and procedures to carry out this responsibility. Such administrative practices and procedures shall include:

1. Locating and identifying all preschool children, between the ages of three and five, with disabilities pursuant to the relevant provisions of the Individuals with Disabilities Act (IDEA). The register of children eligible to receive preschool special education services is to be maintained and revised annually by the Director of Special Services;
2. Ensuring that the parents of preschool age children with disabilities have received and understand the request for consent for evaluation of their child;
3. Developing an individualized education program (IEP) for each preschool age child with a disability requiring services;
4. Appointing and training appropriately qualified personnel;
5. Providing transportation to students enrolled in the program;
6. Maintaining lists as required by the Connecticut State Department of Education pertaining to the number of children with disabilities who are being served, as well as those identified disabled students not served;
7. Reporting as required to the Connecticut State Department of Education; and
8. Ensuring the smooth transition from infant to preschool programs.

The Planning and Placement Team's responsibilities will include the evaluation and recommendation for placement in appropriate approved programs and the provision of appropriate special education programs and services for each preschool child with a disability. Children recommended for an educational program may enter at various points throughout the school year.

Special Education

Pre-School Special Education (continued)

It is ultimately the responsibility of the Board to provide the appropriate approved preschool program and services for the District children. Should the PPT's determination and recommendations differ from parent/guardian preference, placement may be appealed by a parent/guardian through the procedures outlined in IDEA.

If the PPT determines that a child is ineligible for participation in a preschool special education program, a screening for developmental and social-emotional delays using validated assessment tools, such as the Ages and Stages Questionnaire and the Ages and Stages Social-Emotional Questionnaire, or their equivalents, shall take place for such child. The Board directs the Superintendent or his/her designee to ensure that the District considers that adequate and appropriate space and personnel are made available for such programs and services.

Tuition

Non-disabled (general education) students enrolled in the "reverse mainstreaming" preschool program will be required to pay tuition for the program. Identified students or students who qualify for free or reduced-price lunch will not be charged for tuition. The Board will annually establish the tuition rate for the following school year. The Board, through the Superintendent or his/her designee, will establish the procedures for tuition payment. Failure to make such tuition payment may result in discontinuation of enrollment in the program.
