Re: Elementary Student Device Purchase

Due to the increased number of new student enrollment for the 22-23 school year, we need to purchase an additional 120 laptops. Money will be allocated from the 2019 Tech Bond to help pay for this purchase. We will again utilize the best pricing, quality, and warranty to purchase these student devices. The device has been tested and in our current students' hands since the 2019 school year. They have been a solid device for our students.

The device we will be ordering is the Lenovo Yoga 11e 5G. The device has an 11.6" Touchscreen Display, 8GB RAM, 128GB Solid State Drive, and an Intel Pentium Silver N5030 Processor. The device also comes with a three-year warranty and accidental damage coverage.

The device will be purchased from Trafera, formally known as Trinity3. Trafera is one of Lenovo's preferred solution providers, which pushed us to the top of the list for product builds and will hold our price at today's rate. I recommend the purchase of 120 devices at the cost of \$1,089.00 each, totaling \$130,680.00

The total cost of this project is not to exceed \$130,680.00

Respectfully,

Thomas Isom
