Re: Approval of iPad Carts for Elementary classroom for grades Pre-K through Fourth

Coppell ISD is moving from a take home model for 1:1 iPads to a campus model for elementary grades Pre-K through Fourth. This move necessitates the purchase of carts for security, storage, and charging of the devices while they are on campus. JAR carts provide a modernized charging solution to prolong the battery life of our investment.

RECOMMENDATION: That the Coppell ISD Board of Trustees approve the proposal from CDW-G for the delivery, assembly, and installation of iPad carts for elementary classrooms grades Pre-K through Fourth for a total cost not to exceed \$220,000.
