

Texas Online Preparatory School

Enrollment Snapshot

January Highlights

 <p>2026 NASA Space Center Houston Tour</p>		 <p>Source: The Boston Globe</p>
<p>On January 9, more than 200 TOPS families traveled from all around to the state of TX to meet at NASA in Houston for a fun-filled day of science learning differentiated for all kids grades 6-12!</p>	<p>January was filled with all sorts of other science-themed regional field trips for our TOPS students and families. We attended the International Museum of Arts & Science, La Nube STEAM Discovery Center, the Museum of Illusions, and others!</p>	<p>We received word that our 2016 TOPS Valedictorian, Emily Chan, will be ice skating for Team USA at the Winter Olympics this year! To this day, she is very vocal about how TOPS allowed her the opportunity for a great education, without compromising her Olympic dreams! Help us cheer on one of our own this Olympic season!</p>

February Priorities

- Effectively onboard new high school cohorts.
- Ensure 95% participation on Interim 2 (Mock STAAR using 2024 released STAAR) and both TELPAS tests.
- Begin preparations for a strong Rockin' Review season.
- Ensure strong alignment between unpacked TEKS/learning targets, Common Formative Assessments, and asynchronous coursework.
- Practice the Show Call strategy to increase data-responsiveness, student engagement, and purposeful feedback in live classes.
- Continue Teach Big partnership to increase writing results.
