

# Assessments and Data Analysis

## 2010-2011 Accomplishments

- District in-service for all staff in data analysis and common formative assessments
- All administrators present school data at district meetings monthly
- Train district Professional Learning Community Facilitators in data analysis through the Oregon Data Project
- Additional data analysis training for Shaver Elementary Staff with an emphasis on RTI and ELL.
- Created and made available excel templates for data display
- All school principals presented mini-AYP data at mid-year
- Continued district interim assessments in algebra, geometry and physical science
- K-12 Literacy Coaches worked with teachers in assessment development and data analysis

## 2010-2011 Priorities

- Increase teacher's data analysis & common formative assessments skills into PLC through coaching and training from Professional Learning Community Facilitators, Administrator, and Instructional Coaches
- Create three Interim Assessments
  - Middle School Mathematics 6, 7, 8
  - Third – fifth grade in science & mathematics
- Introduce PLC presentation of data at school staff meetings
