

Action Sheet

MEETING DATE:

May 22, 2024

AGENDA ITEM:

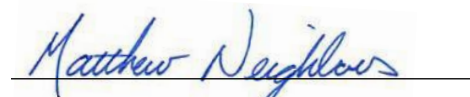

Discuss and consider purchasing ST Math supplemental math software for grades Pre-K-6 for 2 years using TKP After school funds not to exceed \$90,100.

ST Math is a Pre-K through grade 8 visual instructional program that leverages the brain's innate spatial-temporal reasoning ability to solve mathematical problems. ST Math's unique, patented approach provides students with equitable access to learning through challenging puzzles, non-routine problem solving, and formative feedback. Adopted by the state as a high-quality instructional material (HQIM), ST Math will be used by the afterschool program's High Impact Tutoring model to build our students capabilities in math. ST Math will also be made available to the teachers and students during the day and at home for additional supplemental instruction.

ST Math is part of the Region 19 Allied States Cooperative RFP# 23-7458. In addition, Galveston ISD is receiving a \$15,900 discount from MIND Education's School Grant team for purchasing a 2-year license.

RECOMMENDATION:

I move that the Board of Trustees approve the purchase of ST Math supplemental math software for grades Pre-K-6 for 2 years using TKP After school funds not to exceed \$90,100.
