

Board and Superintendent Goals

Background:

In September board members met with IASB representative Lou Ann Gvist to facilitate a goal setting workshop. During this workshop board members shared their vision of what they would like the school district to be, then asked Interim Superintendent Bergman to translate their ideas into goals. Interim Superintendent Bergman is presenting the board with the goals as follows:

The board members and superintendent, in collaboration with a diverse group of stakeholders, will provide leadership through facilitating best practice learning, asking reflective questions, sharing experiences, gathering insights, increasing engagement, and supporting accountability systems to

- Provide district-wide leadership that ensures ongoing improvement of student achievement in literacy as measured by district measures/assessments.
- Provide district-wide leadership that ensures enhancement of students' critical thinking as measured by district/state definitions and identified student behaviors.
- Provide district-wide leadership to hone students' complex communication skills as measured by district/state definitions and identified student behaviors.

Recommended Action:

I recommend that the board approves the goals as presented.
