Re: Floor Scrubber Purchase

A new floor scrubber is required for the new terminal to keep the ceramic tiles clean and the floor dry. Standard wet mopping leaves water that can cause a slip and fall hazard.

Three quotes were obtained, and the purchase price has been placed at \$3,399.00 for the machine and an additional \$132.95 for the scrubber head (Total cost \$3,531.95) to be paid out of Line Number 295-536-931 Equipment Maintenance.

The CARES reimbursement format shows buildings listed as equipment, so this line number is appropriate for equipment maintenance.

Respectfully
