Maintenance Board Report

The month of November has kept the Maintenance Department very busy with sports team travels. Fueling, Scheduling van availability, delivering vans so sports teams have a return trip and transporting off Island teams to and from the ferry. This has taken up a lot of our time.

School maintenance is steady, with inspection of systems to just daily walk throughs of the school buildings. The High school weld shop circulation pump bearing assembly went out, one is on order and should be here with in the week. We have set up a supplemental heating system in the shop until the pump can be replaced.

The cities woodchip boiler has been started up and is slow to build heat. Viking lumber has delivered a wet load of the chips and was taking some time to get lit. The system is up and going at full capacity right now.

If there are any questions or concerns regarding the maintenance of the district, please feel free to contact me.

Daniel Nelson
Maintenance Director
