## **Board Salute**

### **Abigail Herrera-Cervantes, Olivia Giles, and Arianny Alanis 4th Grade Students - Turner Elementary School**

*Submitted by: Morgan Efrom, Turner Principal & Kelly Reinmann, Turner Assistant Principal*

We would like to recognize three very special Turner 4th Grade students, Abigail Herrera-Cervantes, Olivia Giles, and Arianny Alanis, for their immediate response and outstanding support of a classmate who needed medical attention. Their awareness, compassion, and quick actions truly made a significant difference in a critical moment.

These students noticed that something was not right and did not hesitate to act. They immediately informed their teachers, stayed calm under pressure, and guided their classmate to get the support they needed. Their ability to recognize the seriousness of the situation and respond with such urgency demonstrated maturity, responsibility, and genuine care for the well-being of others.

In moments like these, quick thinking and immediate action can have a tremendous impact, and these students exemplified what it means to look out for one another. Their actions reflect the very best of the Turner community and serve as a powerful example of leadership, empathy, and courage.

We are incredibly proud of these students and deeply appreciative of the care they showed for their classmate. This Board Salute is more than deserved, and we cannot thank them enough for stepping up when it mattered most.
