Memorandum

To: Sheila Alles, Director of Academic Services

From: Tim Klan, Administrator of Information Technology

Date: June 4th, 2014

RE: Replacement of Administrative Computers

As a result of discussions with the Administrative Technology Bond Committee and Cabinet, the Information Technology Department is recommending the replacement of the administrator and support staff workstation computers. These computers are currently the oldest in the districts inventory, dating back almost 10 years.

The replacement will include 310 administrative and support staff computers totaling \$237,670 (\$766.68 each). This will include computers in the following areas.

- Building Principals
- Building Secretaries
- Counselors
- Maintenance
- Transportation
- Warehouse
- Board Office staff
- Board Office IT computer lab
- Other building level support staff

The purchase will be made from the technology bond budget, using the State of Michigan's 22i TRIG Spot bid. The purpose of the SPOT Bid (Statewide Purchasing Online tool), is to leverage volume from the entire state of Michigan to reduce the cost of purchasing devices. Because we are utilizing pricing from this SPOT bid, no additional bids are required. To take advantage of this pricing, purchases through this bid must be made between June 1- July 31, 2014.
