

Executive Summary

Prepared for Board of Trustees Meeting

October 7, 2008

Instructional Technology Creative Innovations

Board Goal:

This presentation will reach all six Board Goals

Purpose of Report

The purpose of this report to the Board will provide insight into the Instructional Technology program and the exciting success stories with the technology at our campuses.

Objectives

- How we make it happen
- District and campus initiatives
- Program support
- 2007 completed Bond rollouts
- Library Services
- Bring the world to Denton

Operational Impact

There will be nothing asked of the Board as this is for information and program status.

Results

Technology advancement moves forward every day. The instructional technology department continues to interlace the “keys to success” with not only our staff but to our students through our staff. Technology is the multisensory collaboration that enhances the facilitation of learning. As the technology tools and presentation techniques become common practice our students will be fluent lifelong learners for the world they enter after graduation.

Other Options

- Today’s presentation will be a new vocabulary lesson in technology present and future tools. Use this knowledge to expand your vision for DISD and focus in on your key area of emphasis when you attend the NSBA T+L (Technology + Learning) conference October 28-30.
