

## **Maintenance / Technology Dept.**

**September 17, 2018**

### **Student Technology**

- All of the Minico student laptops have been handed out for Grades 9-11.
- We have received 650 new iPads and started to set them up.
- We have ordered 70 new laptops for West to be installed in October.
- We have received the 240 refurbished desktops to replace half of our labs in the district to take care of Windows 7 ending in 2020. We will need to replace the other half of our labs next year. These computers will be installed during the fall.

### **Classroom Technology**

- The intercom at East was finished before school except for the outside speakers will need replaced for the new system.

### **District Technology**

- The district website will have a new look on September 10th.

### **Security/Video**

- We added 7 new programmable locks at Minico to cover more outside entrances.
- We have started replacing and increasing the video cameras on all the main entrance doors in the district. Our priority is outside entrances, hallways, then classrooms.

### **Work Orders**

- In August we combined our work order system with maintenance. Numbers will be both Maintenance and Technology starting in August. School Dude has been discontinued. It is too difficult to separate the numbers.
