| *Homework/Study Room | 44 |
| Math Tutoring/ Homework Help | 66 |
| *Pilates | 4 |
| Science Tutoring/ Homework Help | 11 |
| *Theatrical Makeup | 6 |

*Actual numbers are higher due to several Teen REACH students that also attend these classes.

PROGRAM UPDATE

There are currently 44 students enrolled in the Project Success 21st CCLC Program @ GRHS. A total of 74 students have attended programming during this school year. Staff continue to encourage students to submit their enrollment forms. Daily attendance has ranged from 4-21 students.

A weekly attendance incentive program began in October. For each day a student attends the program, their name is entered into an end of the week drawing for a prize.

Homework Help & Tutoring is offered daily!

Early Bird Homework Help is offered daily from 7:30—8:00 AM in Room 117 or 119. This session is also available to students who need a quiet place to study. A breakfast snack is served.

Credit Recovery—Education 2020 is a virtual classroom that offers the opportunity to complete needed courses with

Cooking Club making a Sweet & Sour Chicken Noodle dish

the convenience of doing them online.

Art Classes – Students have learned how to use a grid to draw cartoons. They have also created stained glass and

created Halloween pictures by working with charcoal.

Pilates – Students are learning how to use breathing to relax while strengthening core muscles.

Theatrical Makeup – Students have enjoyed learning how to use makeup to create bruises and cuts. Students also learned how to use makeup to age themselves.

Cooking Club – Students have learned about food safety and how to follow recipes. Students have prepared cakes, cheesecake, steak/baked potatoes, and noodle dishes.

Movie Club is a new class that meets on Wednesdays from 2:30—4:30 in Mr. Green's room!

FALL SCHEDULE

Early Bird Homework Help/
Study Room:
Daily 7:30 —8:00 AM

After School Tutoring/
Homework Help:
Daily 2:30 —4:30 PM

Credit Recovery Lab:
Daily 2:30 —4:30 PM

Art:
Mondays 2:30 —3:30 PM

Field Biology:
Tues/Thurs 2:30 —4:00 PM

Pilates:
Tuesdays 2:30 —3:30 PM

Movie Club:
Wednesdays 2:30 —4:30 PM

Theatrical Makeup:
Thursdays 2:30—3:30 PM

Cooking Club:
Fridays 2:30—3:30 PM

Visitors to the program are always welcome!

Free bus transportation is available daily at 4:30 PM.
Snacks are served daily.

The program is closed on early-out days and during school closings.

This program is funded in part by a grant from the Illinois State Board of Education.

F I E L D B I O L O G Y

Mist-Netting

Students set up three mist nets which are used to capture birds and bats. We captured two Song Sparrows and a Yellow-Rumped Warbler which were released unharmed. Captured birds are identified, weighed, measured, and banded when caught by researchers.

Radio Tracking

Students located a small transmitter using a radio-tracking device. The transmitter is used on many animals including song birds such as cardinals, and snakes. Information is collected on home ranges, diets, and various behaviors.

Mapping

Students measured the perimeter of the woodland and the paths through

the woodland and the prairie. The next step is to identify the largest trees and plot them on a map using a computer based program.

Herbarium-Plant Collection

Students collected tree and herbaceous plants specimens and placed them in a plant press. They learned the proper technique for preserving the plants for later mounting on herbarium sheets.

Prairie King Snake & Dekays' Snakes

While working with trees we caught a Prairie King Snake and two Dekays Snakes. Ignoring the screams and the running we looked at the snakes and turned them loose.

Tree ID

Students draw tree leaves, write the

common & scientific names, and make notes about how to identify the trees.

This class meets on Tuesdays/
Thursdays from 2:30—4:00. Up to 1
credit can be earned through this

In the Field

The Project Success 21st CCLC Program is open to all GRHS students!
