NEW COURSE PROPOSALS FOR 2025-2026

INNOVATIONS LAB

Grade: 6

Length: 1 trimester

This project-based class introduces students to careers through 4–5 hands-on projects utilizing the [Defined Learning Platform](#), including at least one competition and a culminating project reviewed by peers, parents, teachers or community members. Students collaborate with others to solve real-world problems, focusing on critical thinking, creativity, communication, and collaboration.

PROJECT STEM

Grade: 6

Length: 1 trimester

[Amazon's Project STEM](#) course introduces students to computer science through hands-on, engaging lessons that build skills in computational thinking, problem-solving, and creativity. Using platforms like Scratch and Python, students learn core coding concepts while exploring real-world applications. Part of the Amazon Future Engineer program, this course is designed to inspire and prepare the next generation of technology leaders.
