Subject: Approval of Threat Assessment Plan

The DuPage Regional Office of Education requires public school districts to work collaboratively with local first responders to generate a threat assessment plan. The plan identifies the roles and responsibilities of those District 13 employees in the event of a threat to any building. The threat assessment plans are attached for Board review only, as they contain information regarding the maintenance of student and staff safety for each building site in the District. The Administration recommends the Board approve the Threat Assessment Plans for the 2023-2024 school year as presented.

Recommendation: The Board approve the Threat Assessment Plans for 2023-2024, as presented.
