

Athletics/Activities Report
Board Report
September-October

Napi Athletics

Volleyball

Volleyball had 5 teams made up and it was a successful season as they finished November 20th. We had around 58 girls sign up and show up pretty consistently.

Middle School Athletics

Boys Basketball

We started with 2 teams to each grade. With the conference changing from levels of ability and placing student athletes at their ability level such as A team being the best at the middle school level, B team being the mediate level for middle school, and C team being the underdeveloped level for middle school. The A, B, C levels have created a lot of confusion for our fans because we already have A team and B team to each grade. Which means we are calling our teams now AA & AB for 8th grade, BA and BB for 7th grade, and AC and BC for 6th grade. In other words, we need to change this in order to stop our confusion. Color coating is my solution to the fix. We were able to fill all 6 teams by having 71 joins throughout the middle school. We are having eligibility problems as our numbers seem to be down during games but 7th grade and 8th grade just don't seem to care to get eligible despite constant reiteration of our Principal, Athletic Coordinator, and coaches.

We are having unruly parents every now and then so we have had to address one with suspension due to a physical altercation and we are dealing with another parent with verbal harassment as it continues throughout boys' basketball. This parent does call the school board and give false statements which is a break in the chain of command. This parent torments our Athletic Coordinator in public with harsh words regardless of who is around. This fan consistently has undermined the athletic department without any collaboration or cordial dialogue. This parent does get the benefit of the doubt because we ignore it and move on for what's best for the student athletes.

The boys will wrap up their season with their tournaments, if they make it, on Dec. 5th & 6th.

High School Athletics

Volleyball

Sports Banquet was a success and many have received awards from our programs. We had 7 girls that made Academic All-State

Cross Country

Girls placed 6th at state and was a great finish from years past. This could be one of their best finishes in 20 sum years. We did have 1 make all-conference and that same girl was academic all-state. 3 girls altogether made academic all-state.

Boys placed 4th and were nudged out by a team we can beat, but so it goes in sports. We did have 3 places for all- conference selections and 2 for all-state selections. The boys also had 2 boys make the academic all-state with 1 of those boys being our AC/AS performer as well. Altogether our cross country produced 5 academic All-Staters.

Golf

The Sport Banquet went well and many kids were given their awards from the program. Many new golfers so there were a lot of learning lessons this season. We did have 4 academic all-state female golfers which is great because you only have 5 on the varsity. This year they did a 6–7-man rotation for varsity.

Football

The Sports Banquet was good and all awards were given to the ones that came. We did have 3 academic All-staters for football with one being a complete 4.0.

Fall Cheer

Cheerleaders suited up one last time after the season was over to give one last pep rally for our special Olympic team. It was a success and very much appreciated by the team. These girls set a great example for spirit and pride representing Browning Athletics.

Among the athletes we did have 5 girls receive academic all-state.

Soccer

The Sports banquet went well and the kids were excited to get their first ever letter award for Soccer. Our coach gave the awards with great enthusiasm and that emotion spilt into the atmosphere bringing many smiles. Ending the season, we had 6 All-Staters for soccer combined with females and males.

Number of Academic All-staters for Fall Sports - 30

Athletic Directors Number of Hosted Events for Fall Season

21 home hosted Event for all of Fall

Student Activities

We hired an activities coordinator and she will be to work as soon as we can get the transfer finalized. We are excited to have a new person come into activities and give a positive outlook, a new perspective, and fresh ideas for the department.
