Geneva CUSD 304 Curriculum Resource &Textbook Adoption Proposals for 2017 - 2018 School Year

Title	©	Publisher	Course/Grade	Notes
Math				
Open Source Calculus Textbook: CK 12	2017	CK-12 Foundation	GHS Calculus, AP Calculus AB, AP Calculus BC	This is a pilot adoption of an open-source calculus textbook used in all levels of calculus at GHS.
KUTA Software	2017	KUTA Software LLC	All GHS Math courses	This software generates multiple sets of practice problems for students. It will support the open-course calculus text in addition to all other math courses at GHS.
Science				
Modern Chemistry	2017	Houghton Mifflin Harcourt Publishing	GHS Standard and Honors Chemistry	This replacement text will be used for both Standard Chemistry and Honors Chemistry. The current text is outdated and does not incorporate technology resources.
Conceptual Physical Science Explorations, Second Edition	2010	Pearson Addison Wesley	GHS Physical Chemistry	This text supports a new science course covering both chemistry and physics.
Mystery Science	2017	Mystery Science	K-5 Elementary Science	Mystery Science will replace the outdated K-5 Science curriculum. This new resource will allow teachers to meet the shifts and requirements of the Next Generation Science Standards.
Technology				
Microsoft Imagine Academy	2017		GHS Technology Support Internship	This is a platform providing teachers and students with the resources and learning modules on Microsoft products and technologies. This subscription provides GHS teachers access to curriculum, lesson plans, and online learning courses they can make available to students.
HP Self-Maintainer Program	2017	HP, Inc.	GHS Technology Support Internship	HP, Inc.'s self-maintainer program allows technicians to troubleshoot and repair HP computers onsite. To become a certified self-maintainer, technicians must study learning modules and pass the subsequent exams.
World Language-Spanish				
En contacto: Gramatica en accion & En Contacto: Lecturas intermedias	2015	Cengage Learning	Spanish V	These resources replace an outdated textbook with two text resources that each align closely to content and course objectives in Spanish 5.
