RE: Proposed My Math Purchase

Lisa Schwartz informed me today that we may need to revise our recommendation for the purchase of the My Math materials that are scheduled to be approved on the June 24, 2014 agenda. During our initial materials review, the My Math vendor informed us that the technology features were fully compatible with the iPad; yet when we did further testing we have found this not to be the case. Lisa is currently reviewing another option that will meet our needs for the 2014-15 school year, and will provide an update to me by the end of the day on June 20, 2014. That recommendation will be sent to the board under separate cover. The action item for the Math curriculum has been left on the agenda with the hope that the board will have enough information to take action during the June 24, 2014 board meeting.
