

KAUFMAN ISD - MAINTENANCE REPORT

February 2025

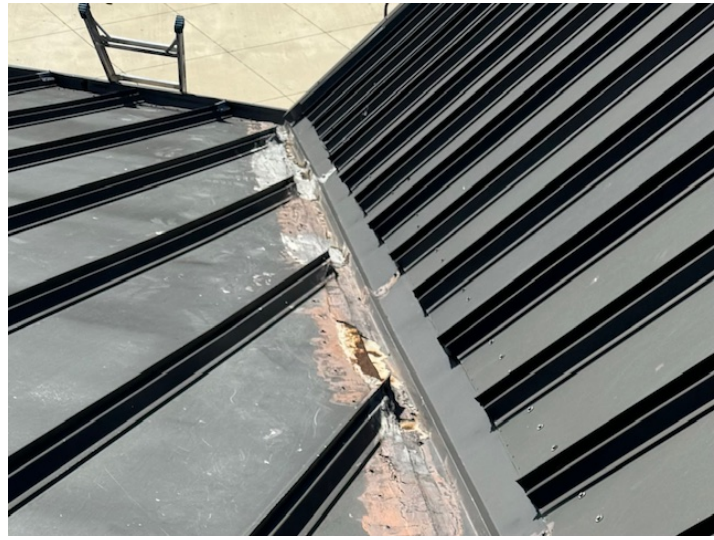

The Kaufman ISD maintenance team has continued to work on improvement projects around the district. In addition, there were over 300 work orders submitted during the month of January 2025.

Here are just a few of the projects that have recently been completed:

The crew is wrapping up the garden bed overhaul to the FAC pavilion. Several more tons of granite were added to the flower beds. The FAC garden bed project will be completed by the end of February.

Roof repairs continue across the district. Pictured above is a badly damaged pair of roof valleys at the high school. Pictured below is the same pair of valleys after the repair.

A severe storm system came through in January dropping several inches of rain in just a few days. The maintenance team kept busy to mitigate the amount of damage caused by the flash flood.

The maintenance crew spent several days tunneling under roadways to get communication and power lines connected to the new security gates.

After a few cold days, the access tunnels were completed and the conduit was put in place. The table is now set for all the lines to be connected. The access controls on the security gates will be fully functional soon. Pictured below are guys from the team cutting through the concrete near the guard shack at the high school.

Work continued on the baseball facility this month. The dugouts and press box were painted, additional bleacher seating was added, and new cage nets were hung. Go Lions!

*****Work Order Numbers for January 2025*****

In January, there were a total of 333 active work orders submitted. The crew completed 309 (92.7%) of those work orders. 71 of those work orders were preventative maintenance jobs and 24 work orders are still currently active. There were 6 duplicates and 44 declined due to special circumstance.
