

## Athletic Dept. Board Report March 2016

Kids, coaches, parents, and bus drivers are spread all over the place seems like every week now! We have a 17 kids in tennis, 15 in golf, and 60 or so in track. For the first time since I have been involved in Sunray we have a girls golf team. I see excitement overflowing from the girls representing our school. Our boys have two teams, and I can't recall that ever being the case here as well. Nicole Spurlock is coaching them, which she approached me last spring and asked for the opportunity to coach the golf team. She is doing a tremendous job of coaching all the kids. It's difficult to get to all the kids spread out over several hundred acres, but she is a busy-bee at the tournaments trying to get to all the kids playing. Also, a first that I know of, since I have been in Sunray is we had a tournament medalist in tennis. Ryan Apodaca won the second place individual medal at the Canadian invitational. Ms. Blankenship is working long hours to help all our tennis kids. She has a passion for tennis, and it shows when she is talking about her program and kids. At press time, Bobcat Relays is tomorrow. I always get a little choked up when I tell people about our track meet. We have the best meet in the state! I really think that I could sit at home and the meet would take care of itself, because the community takes such pride in running a top notch track meet. I never have to search for helpers. I have several people always wanting to work. It takes about 50+ volunteers to make our track meet run seamlessly.

Thank you for everything,

Coach Hab
