533 WELLNESS

I. PURPOSE

~~The purpose of this policy is to assure a school environment that promotes and protects all students' health, well-being, and ability to learn by supporting healthy eating and physical activity.~~

The purpose of this policy is to set forth methods that promote student wellness, prevent and reduce childhood obesity, and assure that school meals and other food and beverages sold and otherwise made available on the school campus during the school day are consistent with applicable minimum local, state, and federal standards.

II. GENERAL STATEMENT OF POLICY

- A. The school board recognizes that nutrition promotion and education, physical activity, and other school-based activities that promote student wellness are essential components of the educational process and that good health fosters student attendance and learning.
- B. The school environment should promote all students' health, well-being, and ability to learn by encouraging healthy eating and physical activity.
- C. The school district encourages the involvement of parents, students, representatives of the school food authority, teachers, school health professionals, the school board, school administrators, and the general public in the development, implementation, and periodic review and update of the school district's wellness policy.
- D. ~~Because all~~ eChildren need access to healthy foods and opportunities to be physically active in order to grow, ~~the school district will provide an optimal~~ learn, ~~ing~~ environment whereby; and thrive.
- E. All students in grades K-12 will have opportunities, support, and encouragement to be physically active on a regular basis.
- F. Qualified food service personnel will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students; try to accommodate the ~~religious, ethnic, and cultural diversity and diverse~~ needs of the student body in meal planning; and will provide clean, safe, and pleasant settings and adequate time for students to eat.

III. WELLNESS GOALS

- A. Nutrition Promotion and Education
 - 1. The school district will encourage and support healthy eating by students and engage in nutrition promotion that is:
 - a. eOffered as part of a comprehensive program designed to provide students with the knowledge and skills necessary to promote and protect their health;
 - b. pPart of health education classes, as well as classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects, where appropriate; and
 - c. eEnjoyable, developmentally appropriate, culturally relevant, and includes participatory activities, such as contests, promotions, taste testings, and field trips. ~~educational experiences~~

2. The school district will encourage all students to make age appropriate, healthy selections of foods and beverages, including those sold individually outside the reimbursable school meal programs, such as through a la carte/snack lines, vending machines, fundraising events, concession stands, and student stores.

3. Farm to School Program

- a. Farm to School programs enhance the nutritional and educational experience of school children by providing:

- 1) Nutritious, locally grown food as a part of the school food program to expose students to a variety of fresh food while supporting local farmers, when available and fiscally responsible to do so. That exposure might be a part of the meal itself or a sample the program is highlighting; and
- 2) Opportunities for educational experiences in classrooms, school gardens and/or at community gardens and local farms to learn about the origins of their food and how their food is grown. ~~These experiences serve as an interdisciplinary teaching tool to influence student food choices and lifelong healthy eating habits.~~

~~b. Farm to School programs provide students with the opportunity to eat healthy, locally grown foods and be exposed to a variety of fresh produce that reflects the ethnic and cultural diversity of the student population. The school district will support the development of Farm to School programs to help students eat more nutritious foods and promote healthier lifelong eating patterns; support the local economy and local farmers; and teach students about the origins of their foods and how their food is grown.~~

~~c. Farm to School Programs will adhere to the recommended USDA Sanitation and Safety guidelines of Traceability of Fresh Produce from local farmers and school gardens. This process includes but is not limited to a review of Good Agricultural Practices (GAPs) and Good Handling Practices (GHPs). Farm to School items served in the Cafeteria, the Child Nutrition Department will maintain traceability records from the source of the product through the serving of the product. This documentation will include information on suppliers including local farms, purchasing records, and the specific source of the product.~~

B. Physical Activity

1. Students need opportunities for physical activity and to fully embrace regular physical activity as a personal behavior. Toward that end, health and physical education will reinforce the knowledge and self-management skills needed to maintain a healthy lifestyle and reduce sedentary activities, such as watching televisions or electronics screens;
2. Opportunities for physical activity will be incorporated into other subject lessons, where appropriate; and
3. Classroom teachers will provide short physical activity breaks between lessons or classes, as appropriate.

~~4. Schools will limit withholding physical activity and recess as a behavioral consequence.~~

~~5. Schools will proactively teach and encourage positive recess behavior and indoor active recess throughout the school year.~~

~~6. Extended periods (i.e., periods of two or more hours of inactivity) are discouraged. When activities, such as school wide testing, making necessary for students to remain indoors for long periods of time, students will be given periodic breaks (before, during, and after) during which they are encouraged to stand and be moderately active.~~

~~74. The school district will encourage Safe Routes to School walking and biking to and from school based on age appropriate standards for students living within certain distances of the school.~~

~~5. Schools are encouraged to promote and support active transportation to schools including participating in Safe Routes to School programming and activities. Schools are to provide active transportation safety education as required by state law.~~

C. Communications with Parents

1. The school district recognizes that parents and guardians have a primary role in promoting their children's health and well-being.

2. The school district will support parents' efforts to provide a healthy diet and daily physical activity for their children.

~~3. The school district encourages parents to pack healthy lunches and snacks and refrain from including beverages and foods without nutritional value.~~

~~34. The school district will provide information about physical education and other school-based physical activity opportunities and will support parents' efforts to provide their children with opportunities to be physically active outside of school.~~

~~5. The school district will include information about the free and reduced educational benefits in it's back to school packets, and on it's website.~~

IV. STANDARDS AND NUTRITION GUIDELINES

A. School Meals

1. The school district will provide healthy and safe school meal programs that comply with all applicable federal, state, and local laws, rules, and regulations.

2. Food service personnel will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students.

3. Food service personnel will try to accommodate the religious, ethnic, and cultural ~~and diverse diversity needs~~ of the student body in meal planning.

~~4. Food service personnel will provide clean, safe, and pleasant settings and adequate time for students to eat.~~

~~54. Food service personnel will take every measure to ensure that student access to foods and beverages meets or exceeds all applicable federal, state, and local laws, rules, and regulations and that reimbursable school meals meet USDA nutrition standards.~~

~~6. Food service personnel shall adhere to all applicable federal, state, and local food safety and security guidelines.~~

~~75. The school district will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible~~

for free and reduced-price school meals. In addition, all students will be fed breakfast and lunch regardless of their lunch balances. Students are never stigmatized about negative lunch balances.

86. The school district will provide students access to hand washing or hand sanitizing before they eat meals or snacks as well as free drinking water available during meals.
97. The school district will make every effort to provide students with sufficient time to eat after sitting down for school meals and will schedule meal periods at appropriate times during the school day.
108. The school district will discourage tutoring, club, or organizational meetings or activities during mealtimes unless students may eat during such activities.

B. School Food Service Program/Personnel

1. The school district shall designate an appropriate person to be responsible for the school district's food service program, whose duties shall include the creation of nutrition guidelines and procedures for the selection of foods and beverages made available on campus to ensure food and beverage choices are consistent with current USDA guidelines.
2. As part of the school district's responsibility to operate a food service program, the school district will provide continuing professional development for all food service personnel in schools.

C. Competitive Foods and Beverages

1. All foods and beverages sold on school grounds to students, outside of reimbursable meals, are considered "competitive foods." Competitive foods include items sold a la carte in the cafeteria, from vending machines, school stores, and for in-school fundraisers.
2. All competitive foods sold during the school day (defined as midnight before school starts and 30 minutes after the end of the official school day) will meet the USDA Smart Snacks in School (Smart Snacks) nutrition standards and any applicable state nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits.
3. The Smart Snacks regulation does not have an impact on the culinary education programs curriculum, nor do they have any impact on food sold to adults at any time or to students outside of the school day. However, nutrition standards do apply to all foods sold to students on the school campus during the school day, including food prepared and sold by the culinary education programs.
4. Caffeinated beverages will comply with the Smart Snack regulations by age group and will only be available in the high schools.
35. Before and Aftercare (child care) programs must also comply with the school district's nutrition standards unless they are reimbursable under USDA school meals program, in which case they must comply with all applicable USDA standards.
6. Here is a link to the Smart Snack calculator to determine which foods fit into the criteria and are allowed during the school day.

<https://foodplanner.healthiergeneration.org/calculator/>

D. Other Foods and Beverages Made Available to Students

1. Student wellness will be a consideration for all foods offered, but not sold, to students on the school campus. ~~Caution will be exercised when offering foods that may cause allergic reactions or adversely impact students with health conditions,~~ including those foods provided through:
 - a. Celebrations and parties. ~~Classroom parties where snacks are brought in by families must come from an accredited source (a store or restaurant) and can not be homemade in a family's kitchen. For this special event, the product does not have to be Smart Snack qualified. A celebration or party is a special and enjoyable occasion (birthdays, holidays, etc.).~~ The school district will provide a list of healthy party ideas to families and staff, including non-food celebration ideas.
 - ~~b. Classroom snacks brought by parents to be distributed to the class. A snack is food eaten between usual meals to supplement the nutritional needs of student intended to make a positive contribution to the child's health and diet. The school district will provide parents to families and staff a list of suggested foods and beverages that meet Smart Snacks nutrition standards.~~
2. Rewards and incentives. Schools will not use foods or beverages as rewards for academic performance or good behavior (unless this practice is allowed by a student's individual education plan or behavior intervention plan) and will not withhold food or beverages as punishment. ~~This means that pizza parties and special rewards (frozen novelties) are not to be used for rewarding academic performance.~~
 - a. ~~Non food rewards can be substituted in this scenario and ideas can be found by following this link.~~
3. Fundraising ~~during the school day must adhere to the Smart Snack rules. Fundraising after the school day and outside of the school does not.~~ The school district will make available to parents and teachers a list of suggested healthy fundraising ideas. ~~Foods and beverages sold as fundraisers during the school day must comply with standards listed in C1 and C2. No restrictions are placed on the sale of food/beverage items sold outside of the school day.~~

E. Food and Beverage Marketing in Schools

1. School-based marketing will be consistent with nutrition education and health promotion.
2. Schools will restrict food and beverages marketing to the promotion of only those foods and beverages that meet the Smart Snacks nutrition standards.

V. WELLNESS LEADERSHIP AND COMMUNITY INVOLVEMENT

A. Wellness Coordinator

1. The superintendent will designate a school district official to oversee the school district's wellness-related activities (Wellness Coordinator). The Wellness Coordinator will ensure that each school implements the policy.

1. At least once every three years, the school district will evaluate compliance with the wellness policy to assess the implementation of the policy and create a report that includes the following information:
 - a. the extent to which schools under the jurisdiction of the school district are in compliance with the wellness policy;
 - b. the extent to which the school district's wellness policy compares to model local wellness policies; and
 - c. a description of the progress made in attaining the goals of the school district's wellness policy.
2. The Wellness Coordinator **or designee** will be responsible for conducting the triennial assessment.

3. The triennial assessment report shall be posted on the school district's website or otherwise made available to the public.

D. Recordkeeping

The school district will retain records to document compliance with the requirements of the wellness policy. The records to be retained include, but are not limited to:

721 PROCUREMENT POLICY

[NOTE: School districts are required by the federal Uniform Grant Guidance (UGG) regulations, 2 Code of Federal Regulations, part 200, to have the policies that establish uniform administrative requirements, cost principles, and audit requirements for federal awards to non-federal entities including school districts. In June 2018, the United States Office of Management and Budget increased the threshold dollar amounts for both simplified acquisition costs (\$250,000) and micro-purchases (\$10,000). In addition, school districts must comply with Minnesota laws on procurement.]

I. PURPOSE

The purpose of this policy is to ensure compliance with the requirements of the federal Uniform Grant Guidance regulations by establishing uniform administrative requirements, cost principles, and audit requirements for federal grant awards received by the school district. This policy also seeks to ensure compliance with Minnesota procurement laws governing school districts.

II. DEFINITIONS

- A. "Compensation for personal services" includes all remuneration, paid currently or accrued, for services of employees rendered during the period of performance under the federal award, including, but not necessarily limited to, wages and salaries. Compensation for personal services may also include fringe benefits which are addressed in 2 Code of Federal Regulations, section 200.431 (Compensation - Fringe Benefits).
- B. "Competitive procurement process" means a process for procurement by sealed bids or by proposals under Minnesota Statutes, section 471.345.
- C. "Contract" means a legal instrument by which the school district purchases property or services needed to carry out the project or program under a federal award. The term, as used in 2 Code of Federal Regulations, Part 200, does not include a legal instrument, even if the school district considers it a contract, when the substance of the transaction meets the definition of a federal award or subaward.
- D. "Direct costs" are those costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.
- E. "Equipment" means tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost which exceeds the lesser of the capitalization level established by the school district for financial statement purposes, or \$10,000.
- F. "Federal award" has the meaning, depending on the context, in either paragraph 1. or 2. below:
 - 1.

- a. The federal financial assistance that the school district receives directly from a federal awarding agency or indirectly from a pass-through entity, as described in 2 Code of Federal Regulations, section 200.101; or
 - b. The cost-reimbursement contract under the federal Acquisition Regulations that the school district receives directly from a federal awarding agency or indirectly from a pass-through entity, as described in 2 Code of Federal Regulations, section 200.101.
 - 2. The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (2) of the definition of *Federal financial assistance* in 2 Code of Federal Regulations 200.1, or the cost-reimbursement contract awarded under the federal Acquisition Regulations.
 - 3. "Federal award" does not include other contracts that a federal agency uses to buy goods or services from a contractor or a contract to operate federal-government-owned, contractor-operated facilities.
- G. "Grants" includes
- 1. "State-administered grants" are those grants that pass through a state agency such as the Minnesota Department of Education (MDE).
 - 2. "Direct grants" are those grants that do not pass through another agency such as MDE and are awarded directly by the federal awarding agency to the grantee organization. These grants are usually discretionary grants that are awarded by the U.S. Department of Education (DOE) or by another federal awarding agency.
- [NOTE: All requirements outlined in this policy apply to both direct grants and state-administered grants.]**
- H. "Non-federal entity" means a state, local government, Indian tribe, institution of higher education, or nonprofit organization that carries out a federal award as a recipient or subrecipient.
 - I. "Post-retirement health plans" refer to costs of health insurance or health services not included in a pension plan covered by 2 Code of Federal Regulations, section 200.431(g) for retirees and their spouses, dependents, and survivors.
 - J. "Severance pay" is a payment in addition to regular salaries and wages by the school district to workers whose employment is being terminated.
 - K. "Travel costs" are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the school district.

III. PROCUREMENT METHOD OPTIONS

A. Procurement by micro-purchase

The acquisition of supplies or services when the aggregate dollar amount of the procurement transaction does not exceed the micro-purchase threshold of \$25,000 (~~generally \$10,000, except as otherwise discussed in 48 Code of Federal Regulations, subpart 2.1 or as periodically adjusted for inflation~~).

[NOTE: Minnesota school districts may choose to increase their federal micro-purchase threshold to \$25,000, which would align with the Minnesota limit. School districts choosing to adopt this increase must annually certify the higher threshold. The annual certification must include a justification, clear identification of the threshold, and supporting documentation of any of the following: (1) a qualification as a low-risk auditee, in accordance with the criteria established in 2 Code of Federal Regulations, section 200.520 for the most recent audit; (2) an annual internal institutional risk assessment to identify, mitigate, and manage financial risks; or (3) a higher threshold consistent with state law.]

B. Procurement by small purchase procedures

This procurement method may be used when the value of the procurement transaction does not exceed the federal simplified acquisition threshold and is within the state threshold of \$175,000. If a small purchase procedure is used, price or rate quotations must be obtained from an adequate number of qualified sources. Unless specified by the Federal agency, the school district may exercise judgment in determining what number is adequate.

[NOTE: Despite the federal government’s increase in the dollar cap for small purchases to \$250,000, Minnesota Statutes, section 471.345 limits the cap for small purchase procedures to \$175,000.]

C. Procurement by sealed bids (formal advertising)

This procurement method involves a publicly solicited and a firm, fixed-price contract (lump sum or unit price) awarded to the responsible bidder whose bid, conforming to all the material terms and conditions of the invitation for bids, is the lowest in price.

D. Procurement by competitive proposals

This procurement method is normally conducted with more than one source submitting an offer, and either a fixed-price or cost-reimbursement type contract is awarded. Competitive proposals are generally used when conditions are not appropriate for the use of sealed bids.

E. Procurement by noncompetitive proposals

This procurement method involves solicitation of a proposal from only one source.

[NOTE: Article IV. on Conflict of Interest has been moved to Article XI. to create a seamless set of Articles regarding procurement.]

IV. GENERAL PROCUREMENT STANDARDS

- A. The school district must use its own documented procurement procedures that reflect applicable state laws, provided that the procurements conform to the applicable federal law and the standards identified in the Uniform Grant Guidance.
- B. The school district must maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.
- C. The school district’s procedures must avoid acquisition of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives and any other appropriate analysis to determine

the most economical approach. Breaking up a procurement into smaller components to avoid the thresholds established in this policy is prohibited.

- D. The school district must award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.
- E. The school district must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to, the following: rationale for the method of procurement; selection of the contract type; contractor selection or rejection; and the basis for the contract price.
- F. The school district alone must be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the school district of any contractual responsibilities under its contracts.
- G. The school district must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, veteran-owned businesses, and labor surplus area firms are considered.
- H. Thresholds for Employee Purchases

The superintendent and/or Executive Director of Business Services, in conjunction with the school board, is responsible for overseeing the procurement process, including establishment of procedures, internal controls, quality assurance, methods of greatest economy, and compliance with all applicable laws. To be valid, all contracts must be approved by the board, except as otherwise provided in this policy.

Individual school district employees may incur expenditures in the following amounts without prior board approval so long as such expenditures are consistent with the school board-approved budget, provided that in all cases the school board retains authority to disapprove any expenditure for any reason at its sole discretion:

- 1. Any school district employee may make a purchase for use in connection with school district operations when the expenditure is less than \$1,000 and is consistent with this policy's requirements.
- 2. In addition to the foregoing, the following school district employees may execute a purchase or procurement that requires the expenditure of up to the following amounts:
 - a. Superintendent: Up to \$100,000
 - b. Executive Director of Business Services: Up to \$100,000

[NOTE: The school board has the authority to determine whether to adopt Subparagraph H.2. In addition, the board may determine the employees to be included and the expenditure amounts to be authorized.]

V. PROCUREMENT METHODS WHEN USING STATE FUNDS

The school district must use one of the following methods of procurement when using state funds:

A. Procurements for \$25,000 or less

If the amount of the contract is estimated to be \$25,000 or less, the contract may be made either upon quotation or in the open market, in the school district's discretion. If the contract is made upon quotation it shall be based, so far as practicable, on at least two (2) quotations which shall be kept on file for a period of at least one (1) year after their receipt.

Alternatively, the school district may award a contract for construction, alteration, repair, or maintenance work to the vendor or contractor offering the best value under a request for proposals as described in Minnesota Statutes, section 16C.28, subdivision 1, paragraph (a), clause (2), and paragraph (c).

Procurements for \$25,000 or less also may be conducted by micro-purchase.

B. Procurements Exceeding \$25,000 but not \$175,000

1. Sealed Bids or Direct Negotiation

If the amount of the contract is estimated to exceed \$25,000 but not to exceed \$175,000, the contract may be made either upon sealed bids or by direct negotiation, by obtaining two (2) or more quotations for the purchase or sale when possible, and without advertising for bids or otherwise complying with the requirements of competitive bidding. All quotations obtained shall be kept on file for a period of at least one (1) year after receipt thereof.

2. Best Value Alternative

As an alternative to the procurement method described in Subparagraph B.1 above, the school district may award a contract for construction, alteration, repair, or maintenance work to the vendor or contractor offering the best value under a request for proposals as described in Minnesota Statutes, section 16C.28, subdivision 1, paragraph (a), clause (2), and paragraph (c).

C. Procurements Exceeding \$175,000

If the amount of the contract is estimated to exceed \$175,000, sealed bids shall be solicited by public notice in the manner and subject to the requirements of the law governing school district contracts.

Procurement by Sealed Bids

Procurement by sealed bids means a process in which bids are publicly solicited and a firm fixed price contract by lump sum or unit price is awarded to the responsible bidder whose bid, conforming with all material terms and conditions of the invitation for bids, is the lowest in price. If sealed bids are used, the following requirements apply:

1. bids must be solicited from an adequate number of qualified sources, providing bidders sufficient response time prior to the date set for opening bids;
2. the invitation for bids, which includes any specifications and pertinent attachments, must define the items or services in order for the bidder to properly respond;
3. all bids will be opened at the time and place prescribed in the invitation for bids, and the bids must be opened publicly;

4. a firm fixed price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that the discounts are usually taken advantage of;
5. any or all bids may be rejected if there is a sound documented reason; and
6. in order for a sealed bid to be feasible, the following conditions must be present:
 - a. a complete, adequate, and realistic specification or purchase description is available;
 - b. two (2) or more responsible bidders are willing and able to compete effectively for the business; and
 - c. the procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the price.

D. Procurement by Proposals

"Procurement by proposals" means a process in which either a fixed price or cost-reimbursement type contract is awarded. Proposals are generally used when conditions are not appropriate for the use of sealed bids. They are awarded in accordance with the following requirements:

1. requests for proposals must be publicized and identify all evaluation factors and their relative importance. Proposals must be solicited from an adequate number of qualified offerors. Any response to publicized requests for proposals must be considered to the maximum extent practical;
2. the school district must have a written method for conducting technical evaluations of the proposals received and for making selections; and
3. contracts must be awarded to the responsible offeror whose proposal is most advantageous to the school district, with price and other factors considered.

VI. PROCUREMENT METHODS WHEN USING FEDERAL FUNDS

A. Procurement by Competitive Proposals

This is a procurement method used when conditions are not appropriate for using sealed bids. This procurement method may result in either a fixed-price or cost-reimbursement contract. If this method is used, the following requirements apply:

1. Requests for proposals require public notice, and all evaluation factors and their relative importance must be identified. Proposals must be solicited from multiple qualified entities. To the maximum extent practicable, any proposals submitted in response to the public notice must be considered;
2. Proposals must be solicited from an adequate number of qualified sources;
3. The school district must have a written method for conducting technical evaluations of the proposals received and for selecting recipients;

4. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and
5. The school district may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method where price is not used as a selection factor can only be used in procurement of A/E professional services; it cannot be used to purchase other types of services, though A/E firms are a potential source to perform the proposed effort.

B. Procurement by Noncompetitive Proposals

Procurement by noncompetitive proposals may be used only when one (1) or more of the following circumstances apply:

1. The aggregate amount of the procurement transaction does not exceed the micro-purchase threshold;
2. The item is available only from a single source;
3. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
4. The DOE or MDE expressly authorizes noncompetitive proposals in response to a written request from the school district; or
5. After solicitation of a number of sources, competition is determined inadequate.

C. Competition

1. All procurement transactions under the Federal award must be conducted in a manner that provides full and open competition and is consistent with the standards of 2 Code of Federal Regulations, sections 200.319 and .320.
2. The school district must have written procedures for procurement transactions. These procedures must ensure that all solicitations:
 - a. are made in accordance with 2 Code of Federal Regulations, section 200.319(b);
 - b. incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product, or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When making a clear and accurate description of the technical requirements is impractical or uneconomical, a "brand name or equivalent" description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and

- c. identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.
- D. The school district must ensure that all prequalified lists of persons, firms, or products used in procurement transactions are current and include enough qualified sources to ensure maximum open competition. When establishing or amending prequalified lists, the school district must consider objective factors that evaluate price and cost to maximize competition. The school must not preclude potential bidders from qualifying during the solicitation period.
- E. The school district is prohibited from contracting with or making subawards under "covered transactions" to parties that are suspended or debarred or whose principals are suspended or debarred. "Covered transactions" include procurement contracts for goods and services awarded under a grant or cooperative agreement that are expected to equal or exceed \$25,000.
- F. All nonprocurement transactions entered into by a recipient (i.e., subawards to subrecipients), irrespective of award amount, are considered covered transactions, unless they are exempt as provided in 2 Code of Federal Regulations, section 180.215.

[NOTE: Thresholds are now set in Article IV.H above.]

G. Managing Property and Equipment and Safeguarding Assets

1. Property Standards

The school district must, at a minimum, provide the equivalent insurance coverage for real property and equipment acquired or improved with federal funds as provided to other property owned by the school district. Federally owned property need not be insured unless required by the terms and conditions of the federal award.

The school district must adhere to the requirements concerning real property, equipment, supplies, and intangible property set forth in 2 Code of Federal Regulations, sections 200.311, 200.314, and 200.315.

2. Managing Equipment

Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part under a federal award, until disposition takes place will, at a minimum, meet the following requirements:

- a. Property records must be maintained that include a description of the property; a serial number or other identification number; the source of the funding for the property (including the federal award identification number (FAIN)); who holds title; the acquisition date; the cost of the property; the percentage of the federal participation in the project costs for the federal award under which the property was acquired; the location, use, and condition of the property; and any ultimate disposition data, including the date of disposition and sale price of the property.
- b. A physical inventory of the property must be taken and the results reconciled with the property records at least once every two (2) years.
- c. A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft must be investigated.

- d. Adequate maintenance procedures must be developed to keep property in good condition.
- e. If the school district is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

H. Cybersecurity

The school district must take reasonable cybersecurity and other measures to safeguard

- 1. Personally identifiable information;
- 2. Information that the federal agency or pass-through entity designates as sensitive; and
- 3. other information that the school district considers sensitive and is consistent with applicable federal, state, local, and tribal laws regarding privacy and responsibility over confidentiality.

[NOTE: See 2 Code of Federal Regulations, section 200.303, which establishes internal controls that the school district must implement.]

VII. FINANCIAL MANAGEMENT REQUIREMENTS

A. Financial Management

The school district’s financial management systems, including records documenting compliance with federal statutes, regulations, and the terms and conditions of the federal award, must be sufficient to permit the preparation of reports required by general and program-specific terms and conditions; and tracking expenditures to establish that funds have been used in accordance with federal statutes, regulations, and the terms and conditions of the federal award.

B. Payment

The school district must be paid in advance, provided it maintains or demonstrates the willingness to maintain both written procedures that minimize the time elapsing between the transfer of funds and disbursement between the school district and the financial management systems that meet the standards for fund control and accountability.

Advance payments to the school district must be limited to the minimum amounts needed and be timed with actual, immediate cash requirements of the school district in carrying out the purpose of the approved program or project. The timing and amount of advance payments must be as close as is administratively feasible to the actual disbursements by the school district for direct program or project costs and the proportionate share of any allowable indirect costs. The school district must make timely payment to contractors in accordance with the contract provisions.

C. Internal Controls

The school district must establish and maintain effective internal control over the federal award that provides reasonable assurance that the school district is managing the federal award in compliance with federal statutes, regulations, and the terms and conditions of the federal award. These internal controls should align with guidance in “Standards for Internal Control in the Federal Government” issued by the Comptroller

General of the United States, or the "Internal Control Integrated Framework," issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

The school district must comply with federal statutes, regulations, and the terms and conditions of the federal award.

The school district must evaluate and monitor the school district's compliance with statutes, regulations, and the terms and conditions of the federal award.

The school district must take prompt action when instances of noncompliance are identified, including noncompliance identified in audit findings.

The school district must take reasonable measures to safeguard protected personally identifiable information and other information considered sensitive consistent with applicable federal and state laws regarding privacy and obligations of confidentiality.

VIII. ALLOWABLE USE OF FUNDS AND COST PRINCIPLES

A. Allowable Use of Funds

The school district administration and school board will enforce appropriate procedures and penalties for program, compliance, and accounting staff responsible for the allocation of federal grant costs based on their allowability and their conformity with federal cost principles to determine the allowability of costs.

B. Definitions

1. "Advance payment" means a payment that a federal agency or pass-through entity makes by any appropriate payment mechanism and payment method before the school district disburses the funds for program purposes.
2. "Allowable cost" means a cost that complies with all legal requirements that apply to a particular federal education program, including statutes, regulations, guidance, applications, and approved grant awards.
3. "Education Department General Administrative Regulations (EDGAR)" means a compilation of regulations that apply to federal education programs. These regulations contain important rules governing the administration of federal education programs and include rules affecting the allowable use of federal funds (including rules regarding allowable costs, the period of availability of federal awards, documentation requirements, and grants management requirements).
4. "Omni Circular"(also known as 2 Code of Federal Regulations, part 200, the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, or the Uniform Grant Guidance means federal cost principles that provide standards for determining whether costs may be charged to federal grants.

C. Allowable Costs

The following items are costs that may be allowable under the 2 Code of Federal Regulations, part 200, subpart E under specific conditions (review the specific part of 2 Code of Federal Regulations 200, subpart E for allowability requirements for the specific cost):

1. Advertising and public relations;

2. Advisory councils;
3. Audit costs and related services;
4. Bonding costs;
5. Compensation - personal services;
6. Compensation – fringe benefits;
7. Conferences;
8. Contingency provisions;
9. Depreciation;
10. Employee health and welfare costs;
11. Equipment and other capital expenditures;
12. Gains and losses on disposition of depreciable assets;
13. Insurance and indemnification;
14. Intellectual property;
15. Maintenance and repair costs;
16. Materials and supplies costs, including costs of computing devices;
17. Memberships, subscriptions, and professional activity costs;

31. Taxes;
32. Telecommunication and video surveillance costs;
33. Termination and standard closeout costs;
34. Training and education costs;
35. Transportation costs; and
36. Travel costs.

D. Costs Forbidden by Federal Law

2 Code of Federal Regulations, part 200 and EDGAR identify certain costs that may never be paid with federal funds. The list below provides examples of such costs. If a cost is on this list, it may not be supported with federal funds unless an exception exists (review the specific part of 2 Code of Federal Regulations 200, subpart E for possible exceptions to unallowable costs). The fact that a cost is not on this list does not mean it is necessarily permissible. Other important restrictions apply to federal funds, such as those items detailed in the 2 Code of Federal Regulations, part 200, subpart E; thus, the following list is not exhaustive:

1. Alcoholic beverages;
2. Bad debts;
3. Contingency provisions (with limited exceptions);
4. Contributions and donations
5. Entertainment (with limited exception);
6. Fines, penalties, damages, and other settlements;
7. Fundraising and investment management costs (with limited exceptions);
8. General costs of government (with limited exceptions pertaining to Indian tribal governments and Councils of Government (COGs));
9. Goods or services for personal use;
10. Interest (except interest specifically stated in 2 Code of Federal Regulations, section 200.449 as allowable);
11. Lobbying;
12. Losses on other Federal awards or contracts;
13. Selling and marketing;
14. Student activity costs;
15. Religious use;
16. The acquisition of real property (unless specifically permitted by programmatic statute or regulations, which is very rare in federal education programs);

17. Construction (unless specifically permitted by programmatic statute or regulations, which is very rare in federal education programs); and
18. Tuition charged or fees collected from students applied toward meeting matching, cost sharing, or maintenance of effort requirements of a program.

E. Program Allowability

1. Any cost paid with federal education funds must be permissible under the federal program that would support the cost.
2. Many federal education programs detail specific required and/or allowable uses of funds for that program. Issues such as eligibility, program beneficiaries, caps or restrictions on certain types of program expenses, other program expenses, and other program specific requirements must be considered when performing the programmatic analysis.
3. The two largest federal K-12 programs, Title I, Part A, and the Individuals with Disabilities Education Act (IDEA), do not contain a use of funds section delineating the allowable uses of funds under those programs. In those cases, costs must be consistent with the purposes of the program in order to be allowable.

F. Federal Cost Principles

The Omni Circular defines the parameters for the permissible uses of federal funds. While many requirements are contained in the Omni Circular, it includes core principles that serve as an important guide for effective grant management. These core principles require all costs to be:

1. Necessary for the proper and efficient performance or administration of the program.
2. Reasonable. An outside observer should clearly understand why a decision to spend money on a specific cost made sense in light of the cost, needs, and requirements of the program.
3. Allocable to the federal program that paid for the cost. A program must benefit in proportion to the amount charged to the federal program – for example, if a teacher is paid 50% with Title I funds, the teacher must work with the Title I program/students at least 50% of the time. Recipients also need to be able to track items or services purchased with federal funds so they can prove they were used for federal program purposes.
4. Authorized under state and local rules. All actions carried out with federal funds must be authorized and not prohibited by state and local laws and policies.
5. Adequately documented. A recipient must maintain proper documentation so as to provide evidence to monitors, auditors, or other oversight entities of how the funds were spent over the lifecycle of the grant.

G. Program Specific Fiscal Rules

The Omni Circular also contains specific rules on selected items of costs. Costs must comply with these rules in order to be paid with federal funds.

1. All federal education programs have certain program specific fiscal rules that apply. Determining which rules apply depends on the program; however, rules such as supplement, not supplant, maintenance of effort, comparability, caps on certain uses of funds, etc., have an important impact when analyzing whether a particular cost is permissible.
2. Many state-administered programs require school districts to use federal program funds to supplement the amount of state, local, and, in some cases, other federal funds they spend on education costs and not to supplant (or replace) those funds. Generally, the "supplement, not supplant" provision means that federal funds must be used to supplement the level of funds from non-federal sources by providing additional services, staff, programs, or materials. In other words, federal funds normally cannot be used to pay for things that would otherwise be paid for with state or local funds (and, in some cases, with other federal funds).
3. Auditors generally presume supplanting has occurred in three (3) situations:
 - a. The school district uses federal funds to provide services that the school district is required to make available under other federal, state, or local laws.
 - b. The school district uses federal funds to provide services that the school district provided with state or local funds in the prior year.
 - c. The school district uses Title I, Part A, or Migrant Education Program funds to provide the same services to Title I or Migrant students that the school district provides with state or local funds to nonparticipating students.
4. These presumptions apply differently in different federal programs and also in schoolwide program schools. Staff should be familiar with the supplement not supplant provisions applicable to their program.

H. Approved Plans, Budgets, and Special Conditions

1. As required by the Omni Circular, all costs must be consistent with approved program plans and budgets.
2. Costs must also be consistent with all terms and conditions of federal awards, including any special conditions imposed on the school district's grants.

I. Training

1. The school district will provide training on the allowable use of federal funds to all staff involved in federal programs.
2. The school district will promote coordination between all staff involved in federal programs through activities, such as routine staff meetings and training sessions.

J. Employee Sanctions

Any school district employee who violates this policy will be subject to discipline, as appropriate, up to and including the termination of employment.

K. Reduction in Aid

If the school district makes a purchase without a procurement policy adopted by the school board or makes a purchase not in conformity with the school district's procurement policy, the Commissioner may reduce that school district's state aid in an amount equal to the purchase.

L. Property, Financial Investments, and Contracting

The school district is subject to and must comply with Minnesota Statutes, sections 15.054 and 118A.01 to 118A.06 governing government property and financial investments and sections 471.38, 471.391, 471.392, and 471.425 governing municipal contracting.

M. Mandatory Disclosures

The school district must promptly disclose whenever, in connection with the federal award (including any activities or subawards thereunder), it has credible evidence of the commission of a violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in 18 United States Code or a violation of the civil False Claims Act (31 United States Code, sections 3729–3733).

The disclosure must be made in writing to the DOE, MDE, and the MDE Office of Inspector General (if applicable). School districts are also required to report matters related to school district integrity and performance in accordance with Appendix XII of 2 Code of Federal Regulations, part 200. Failure to make required disclosures can result in any of the remedies described in 2 Code of Federal Regulations, section 200.339.

IX. COMPENSATION – PERSONAL SERVICES EXPENSES AND REPORTING

A. Compensation – Personal Services

Costs of compensation are allowable to the extent that they satisfy the specific requirements of the Uniform Grant Guidance and that the total compensation for individual employees:

1. Is reasonable for the services rendered and conforms to the established written school district policy consistently applied to both federal and non-federal activities; and
2. Follows an appointment made in accordance with the school district's written policies and meets the requirements of federal statute, where applicable.

Unless an arrangement is specifically authorized by a federal awarding agency, the school district must follow its written non-federal, entity wide policies and practices concerning the permissible extent of professional services that can be provided outside the school district for non-organizational compensation.

B. Compensation – Fringe Benefits

1. During leave

The costs of fringe benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, family-related leave, sick leave, holidays, court leave, military leave, administrative leave, and other similar benefits, are allowable if all of the following criteria are met:

- a. They are provided under established written leave policies;

- b. The costs are equitably allocated to all related activities, including federal awards; and
 - c. The accounting basis (cash or accrual) selected for costing each type of leave is consistently followed by the school district.
2. The costs of fringe benefits in the form of employer contributions or expenses for social security; employee life, health, unemployment, and worker's compensation insurance (except as indicated in 2 Code of Federal Regulations, section 200.447(d)); pension plan costs; and other similar benefits are allowable, provided such benefits are granted under established written policies. Such benefits must be allocated to federal awards and all other activities in a manner consistent with the pattern of benefits attributable to the individuals or group(s) of employees whose salaries and wages are chargeable to such federal awards and other activities and charged as direct or indirect costs in accordance with the school district's accounting practices.
 3. Actual claims paid to or on behalf of employees or former employees for workers' compensation, unemployment compensation, severance pay, and similar employee benefits (e.g., post-retirement health benefits) are allowable in the year of payment provided that the school district follows a consistent costing policy.
 4. Pension plan costs may be computed using a pay-as-you-go method or an acceptable actuarial cost method in accordance with the school district's written policies.
 5. Post-retirement costs may be computed using a pay-as-you-go method or an acceptable actuarial cost method in accordance with established school district written policies.
 6. Costs of severance pay are allowable only to the extent that, in each case, severance pay is required by law; employer-employee agreement; established policy that constitutes, in effect, an implied agreement on the school district's part; or circumstances of the particular employment.

C. Insurance and Indemnification

Types and extent and cost of coverage are in accordance with the school district's policy and sound business practice.

D. Recruiting Costs

Short-term, travel visa costs (as opposed to longer-term, immigration visas) may be directly charged to a federal award, so long as they are:

1. Critical and necessary for the conduct of the project;
2. Allowable under the cost principles set forth in the Uniform Grant Guidance;
3. Consistent with the school district's cost accounting practices and school district policy; and
4. Meeting the definition of "direct cost" in the applicable cost principles of the Uniform Grant Guidance.

E. Travel Costs

Under 2 Code of Federal Regulations, section 200.475, travel costs include the transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the school district.

Travel costs may be charged on an actual cost basis, on a per diem or mileage basis, or on a combination of the two, provided the method used is applied to an entire trip and not to selected days of the trip. The method used must be consistent with those normally allowed in like circumstances in the school district's other activities and in accordance with the school district's established written policies.

Costs incurred by employees and officers for travel, including costs of lodging, other subsistence, and incidental expenses, must be considered reasonable and otherwise allowable only to the extent such costs do not exceed charges normally allowed by the school district in its regular operations as a result of the school district's written policy.

In addition, when costs are charged directly to the federal award, documentation must justify that:

1. Participation of the individual is necessary to the federal award; and
2. The costs are reasonable and consistent with the school district's established written policy.

Temporary dependent care costs above and beyond regular dependent care are allowable provided that these costs are:

1. A direct result of the individual's travel for the federal award;
2. Consistent with the school district's established written policy for all school district travel; and
3. Only temporary during the travel period.

[NOTE: Noncompliance. If a school district fails to comply with federal statutes, regulations, or the terms and conditions of a federal award, the DOE or MDE may impose additional conditions, as described in 2 Code of Federal Regulations, section 200.208 (Specific Conditions).

If the DOE or MDE determines that noncompliance cannot be remedied by imposing specific conditions, the DOE or MDE may take one or more of the following actions, as appropriate under the circumstances: (1) Temporarily withhold payments until the school district takes corrective action;; (2) Disallow (that is, deny both use of funds and any applicable matching credit for) costs for all or part of the activity associated with the noncompliance; (3) Wholly or partly suspend or terminate the federal award; (4) Initiate suspension or debarment proceedings as authorized under 2 Code of Federal Regulations, part 180 and DOE regulations (or, in the case of MDE, recommend such a proceeding be initiated by the DOE); (5) Withhold further federal awards (new awards or continuation funding) for the project or program; and/or (6) Take other remedies that may be legally available.]

X. SUBRECIPIENT MONITORING

[NOTE: MDE auditors have stated that subrecipient monitoring must be covered in policy.]

- A. The school district will:

1. Verify that the subrecipient is not excluded or disqualified in accordance with 2 Code of Federal Regulations, section 180.300. Verification methods are provided in section 180.300, which include confirming in *SAM.gov* that a potential subrecipient is not suspended, debarred, or otherwise excluded from receiving federal funds.

2. Ensure that every subaward is clearly identified to the subrecipient as a subaward and includes the information provided below. A pass-through entity must provide the best available information when some of the information below is unavailable. A pass-through entity must provide the unavailable information when it is obtained.
 - a. Required information includes:
 - (1) Federal award identification
 - i. Subrecipient's name (must match the name associated with its unique entity identifier);
 - ii. Subrecipient's unique entity identifier;
 - iii. Federal Award Identification Number (FAIN);
 - iv. Federal Award Date;
 - v. Subaward Period of Performance Start and End Date;
 - vi. Subaward Budget Period Start and End Date;
 - vii. Amount of Federal Funds Obligated in the subaward;
 - viii. Total Amount of Federal Funds Obligated to the subrecipient by the pass-through entity, including the current financial obligation;
 - ix. Total Amount of the Federal Award committed to the subrecipient by the pass-through entity;
 - x. Federal award project description, as required by the Federal Funding Accountability and Transparency Act (FFATA);
 - xi. Name of the Federal agency, pass-through entity, and contact information for awarding official of the pass-through entity;
 - xii. Assistance Listings title and number; the pass-through entity must identify the dollar amount made available under each Federal award and the Assistance Listings Number at the time of disbursement;
 - xiii. Identification of whether the federal award is for research and development; and
 - xiv. Indirect cost rate for the federal award (including if the de minimis rate is used in accordance with 2 Code of Federal Regulations, section 200.414).

- (2) All requirements of the subaward, including requirements imposed by Federal statutes, regulations, and the terms and conditions of the Federal award;
 - (3) Any additional requirements that the pass-through entity imposes on the subrecipient for the pass-through entity to meet its responsibilities under the Federal award. This includes information and certifications (see 2 Code of Federal Regulations, section 200.415) required for submitting financial and performance reports that the pass-through entity must provide to the federal agency;
 - (4) Indirect cost rate;
 - (5) A requirement that the subrecipient permit the pass-through entity and auditors to access the subrecipient's records and financial statements for the pass-through entity to fulfill its monitoring requirements; and
 - (6) Appropriate terms and conditions concerning the closeout of the subaward.
3. Evaluate each subrecipient's fraud risk and risk of noncompliance with a subaward to determine the appropriate subrecipient monitoring described in 2 Code of Federal Regulations, section 200.332, paragraph (f). When evaluating a subrecipient's risk, a pass-through entity should consider the following:
 - a. The subrecipient's prior experience with the same or similar subawards;
 - b. The results of previous audits. This includes considering whether or not the subrecipient receives a Single Audit in accordance with 2 Code of Federal Regulations, part 200, subpart F and the extent to which the same or similar subawards have been audited as a major program;
 - c. Whether the subrecipient has new personnel or new or substantially changed systems; and
 - d. The extent and results of any federal agency monitoring (for example, if the subrecipient also receives federal awards directly from the federal agency).
 4. If appropriate, consider implementing specific conditions in a subaward as described in 2 Code of Federal Regulations, section 200.208 and notify the Federal agency of the specific conditions.
 5. Monitor the activities of a subrecipient as necessary to ensure that the subrecipient complies with Federal statutes, regulations, and the terms and conditions of the subaward. The pass-through entity is responsible for monitoring the overall performance of a subrecipient to ensure that the goals and objectives of the subaward are achieved. In monitoring a subrecipient, a pass-through entity must:
 - a. Review financial and performance reports.
 - b. Ensure that the subrecipient takes corrective action on all significant developments that negatively affect the subaward. Significant developments include Single Audit findings related to the subaward,

other audit findings, site visits, and written notifications from a subrecipient of adverse conditions which will impact their ability to meet the milestones or the objectives of a subaward. When significant developments negatively impact the subaward, a subrecipient must provide the pass-through entity with information on their plan for corrective action and any assistance needed to resolve the situation.

- c. Issue a management decision for audit findings pertaining only to the Federal award provided to the subrecipient from the pass-through entity as required by 2 Code of Federal Regulations, section 200.521.
 - d. Resolve audit findings specifically related to the subaward. However, the pass-through entity is not responsible for resolving cross-cutting audit findings that apply to the subaward and other Federal awards or subawards. If a subrecipient has a current Single Audit report and has not been excluded from receiving Federal funding (meaning, has not been debarred or suspended), the pass-through entity may rely on the subrecipient's cognizant agency for audit or oversight agency for audit to perform audit follow-up and make management decisions related to cross-cutting audit findings in accordance with 2 Code of Federal Regulations, section 200.513(a)(4)(viii). Such reliance does not eliminate the responsibility of the pass-through entity to issue subawards that conform to agency and award-specific requirements, to manage risk through ongoing subaward monitoring, and to monitor the status of the findings that are specifically related to the subaward.
6. Depending upon the pass-through entity's assessment of the risk posed by the subrecipient (as described in 2 Code of Federal Regulations, section 200.332, paragraph (c)), the following monitoring tools may be useful for the pass-through entity to ensure proper accountability and compliance with program requirements and achievement of performance goals:
- a. Providing subrecipients with training and technical assistance on program-related matters;
 - b. Performing site visits to review the subrecipient's program operations; and
 - c. Arranging for agreed-upon-procedures engagements as described in 2 Code of Federal Regulations, section 200.425.
7. Verify that a subrecipient is audited as required by 2 Code of Federal Regulations, part 200, subpart F.
8. Consider whether the results of a subrecipient's audit, site visits, or other monitoring necessitate adjustments to the pass-through entity's records.
9. Consider taking enforcement action against noncompliant subrecipients as described in 2 Code of Federal Regulations, section 200.339 and in program regulations.

XI. CONFLICT OF INTEREST

A. Standards of Conduct

The school district will maintain written standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award and administration of contracts.

- B. No employee, officer, agent, or board member may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, agent, or board member, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. The employees, officers, agents, and board members of the school district may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, the school district may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct must provide for disciplinary actions to be applied for violations of such standards by employees, officers, agents, or board members of the school district. Disciplinary actions may be undertaken pursuant to the school district's Discipline, Suspension, and Dismissal of School Employees policy.

The school district's Conflict of Interest policies and procedures provide additional measures regarding conflicts of interest.

[Note: The Minnesota Department of Education confirmed that the "written standards of conduct" required under 2 Code of Federal Regulations, section 200.318(c)(1) may appear in this policy, another policy and/or in an employee handbook. School boards may decide whether to adopt this section or address written standards of conduct elsewhere.]

C. Organizational Conflicts of Interest

If the school district has a parent, affiliate, or subsidiary organization that is not a state, local government, or Indian tribe, the school district must maintain written standards concerning organizational conflicts of interest. Organizational conflicts of interest means that because of relationships with a parent company, affiliate, or subsidiary organization, the school district is unable or appears to be unable to be impartial in conducting a procurement action involving the related organization.

D. Disclosing Conflicts of Interest

The school district will disclose in writing any potential conflict of interest to MDE in accordance with established federal agency policies.

III. DEFINITIONS

A. Authorized Representative

"Authorized representative" means any entity or individual designated by the school district, state, or an agency headed by an official of the Comptroller of the United States, the Attorney General of the United States, the Secretary of the U.S. Department of Education, or state and local educational authorities to conduct, with respect to federal or state supported education programs, any audit or evaluation or any compliance or enforcement activity in connection with federal legal requirements that relate to these programs.

B. Biometric Record

"Biometric record," as referred to in "Personally Identifiable," means a record of one or more measurable biological or behavioral characteristics that can be used for automated recognition of an individual (e.g., fingerprints, retina and iris patterns, voiceprints, DNA sequence, facial characteristics, and handwriting).

C. Dates of Attendance

"Dates of attendance," as referred to in "Directory Information," means the period of time during which a student attends or attended a school or schools in the school district, including attendance in person or by paper correspondence, videoconference, satellite, Internet, or other electronic information and telecommunications technologies for students who are not in the classroom, and including the period during which a student is working under a work-study program. The term does not include specific daily records of a student's attendance at a school or schools in the school district.

D. Directory Information

1. Under federal law, "directory information" means information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. It includes the student's name; address; telephone listing; electronic mail address; photograph; date and place of birth; major field of study; dates of attendance; grade level; enrollment status (i.e., full-time or part-time); participation in officially recognized activities and sports; weight and height of members of athletic teams; degrees, honors and awards received; and the most recent educational agency or institution

attended. It also includes the name, address, and telephone number of the student's parent(s). Directory information does not include:

- a. a student's social security number;
- b. a student's identification number (ID), user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems if the identifier may be used to access education records without use of one or more factors that authenticate the student's identity such as a personal identification number (PIN), password, or other factor known or possessed only by the authorized user;
- c. a student ID or other unique personal identifier that is displayed on a student ID badge if the identifier can be used to gain access to educational records when used in conjunction with one or more factors that authenticate the student's identity, such as a PIN, password, or other factor known or possessed only by the student;
- d. personally identifiable data which references religion, race, color, social position, or nationality; or
- e. data collected from nonpublic school students, other than those who receive shared time educational services, unless written consent is given by the student's parent or guardian.

[NOTE: Under the federal Family Educational Rights and Privacy Act (FERPA), the federal definition of "directory information" identifies the types of information that may be specifically referenced as directory information. The federal definition applies to information requests by military recruiting officers, as set out in Article XI below.]

- 2. Minnesota law prohibits schools from designating student contact information as "directory information" despite the FERPA definition. Duluth Public Schools excludes the following information:

A. Student contact information

Under Minnesota law, a school district may not designate a student's home address, telephone number, email address, or other personal contact information as "directory information."

B. Parent contact information

The 2025 Minnesota legislature enacted the following: A parent's personal contact information must be treated as private data on individuals regardless of whether that contact information was previously designated as or treated as directory information under Minnesota Statutes, section 13.32, subdivision 2.

In addition, the 2025 Minnesota legislature enacted the following: Data concerning parents is private data on individuals but may be treated as directory information if the same procedures that are used by a school district to designate student data as directory information are followed, except that a parent's home address, telephone number,

email address, or other personal contact information may not be treated as directory information.

E. Education Records

1. What constitutes "education records."

Education records means those records that are: (1) directly related to a student; and (2) maintained by the school district or by a party acting for the school district.

2. What does not constitute education records.

The term "education records" does not include:

a. Records of instructional personnel that are:

- (1) kept in the sole possession of the maker of the record;
- (2) used only as a personal memory aid;
- (3) not accessible or revealed to any other individual except a temporary substitute teacher; and
- (4) destroyed at the end of the school year.

b. Records of a law enforcement unit of the school district, provided education records maintained by the school district are not disclosed to the unit, and the law enforcement records are:

- (1) maintained separately from education records;
- (2) maintained solely for law enforcement purposes; and
- (3) disclosed only to law enforcement officials of the same jurisdiction.

c. Records relating to an individual, including a student, who is employed by the school district which:

- (1) are made and maintained in the normal course of business;
- (2) relate exclusively to the individual in that individual's capacity as an employee; and
- (3) are not available for use for any other purpose.

However, records relating to an individual in attendance at the school district who is employed as a result of his or her status as a student are education records.

d. Records relating to an eligible student, or a student attending an institution of ~~post-secondary~~ postsecondary education, that are:

- (1) made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his or her professional or paraprofessional capacity or assisting

in that capacity;

(2) made, maintained, or used only in connection with the provision of treatment to the student; and

(3) disclosed only to individuals providing the treatment; provided that the records can be personally reviewed by a physician or other appropriate professional of the student's choice. For the purpose of this definition, "treatment" does not include remedial educational activities or activities that are a part of the program of instruction within the school district.

e. Records created or received by the school district after an individual is no longer a student at the school district and that are not directly related to the individual's attendance as a student.

f. Grades on peer-related papers before the papers are collected and recorded by a teacher.

F. Education Support Services Data

"Education support services data" means data on individuals collected, created, maintained, used, or disseminated relating to programs administered by a government entity or entity under contract with a government entity designed to eliminate disparities and advance equities in educational achievement for youth by coordinating services available to participants, regardless of the youth's involvement with other government services. Education support services data does not include welfare data under Minnesota Statutes, section 13.46.

Unless otherwise provided by law, all education support services data are private data on individuals and must not be disclosed except according to Minnesota Statutes, section 13.05 or a court order.

G. Eligible Student

"Eligible student" means a student who has attained eighteen (18) years of age or is attending an institution of ~~post-secondary~~ postsecondary education.

H. Juvenile Justice System

"Juvenile justice system" includes criminal justice agencies and the judiciary when involved in juvenile justice activities.

I. Legitimate Educational Interest

"Legitimate educational interest" includes an interest directly related to classroom instruction, teaching, student achievement and progress, discipline of a student, student health and welfare, and the ability to respond to a request for education data. It includes a person's need to know in order to:

1. Perform an administrative task required in the school or employee's contract or position description approved by the school board;

8. To accrediting organizations in order to carry out their accrediting functions;
9. To parents of a student eighteen (18) years of age or older if the student is a dependent of the parents for income tax purposes;
10. To comply with a judicial order or lawfully issued subpoena, provided, however, that the school district makes a reasonable effort to notify the parent or eligible student of the order or subpoena in advance of compliance therewith so that the parent or eligible student may seek protective action, unless the disclosure is in compliance with a federal grand jury subpoena, or any other subpoena issued for law enforcement purposes, and the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed, or the disclosure is in compliance with an ex parte court order obtained by the United States Attorney General (or designee not lower than an Assistant Attorney General) concerning investigations or prosecutions of an offense listed in 18 United States Code, section 2332b(g)(5)(B), an act of domestic or international terrorism as defined in 18 United States Code, section 2331, or a parent is a party to a court proceeding involving child abuse and neglect or

11. To appropriate parties, including parents of an eligible student, in connection with an emergency if knowledge of the information is necessary to protect the health, including the mental health, or safety of the student or other individuals. The decision is to be based upon information available at the time the threat occurs that indicates that there is an articulable and significant threat to the health or safety of a student or other individuals. In making a determination whether to disclose information under this section, the school district may take into account the totality of the circumstances pertaining to a threat and may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other students. A record of this disclosure must be maintained pursuant to ~~Section~~ Paragraph XIII.E. of this policy. The principal may also notify other school district employees, substitutes, and volunteers who are in direct contact with the student if the principal determines that these individuals need the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. Such notices from the principal must identify the student, outline the offense, and describe any conditions of probation about which the school must provide information if this information is provided in the disposition order. Disposition order information received is private educational data received for the limited purpose of serving the educational needs of the student and protecting students and staff. Peace officer's record information received is private educational data received for the limited purpose of serving the educational needs of the student and protecting students and staff. The information must not be further disseminated by the counselor, teacher administrator, staff member, substitute, or volunteer except to communicate with the student or the student's parent or guardian as necessary to serve the student, to protect students and staff, or as otherwise required by law.

The principal must delete the peace officer's record from the student's education record, destroy the data, and make reasonable efforts to notify any teacher, counselor, staff member, administrator, substitute, or volunteer who received information from the peace officer's record if the county attorney determines not to proceed with a petition or directs the student into a diversion or mediation program or if a juvenile court makes a decision on a petition and the county attorney or juvenile court notifies the superintendent of such action;

the confidentiality of a student's education records.

23. When requested, and in accordance with requirements for parental consent in 34 Code of Federal Regulations, section 300.622(b)(2), and part 99, educational agencies or institutions may share personal student contact information and directory information for students served in special education with postsecondary transition planning and services under Minnesota Statutes, section 125A.08, paragraph (b), clause (1), whether public or private, with the Minnesota Department of Employment and Economic Development, as required for coordination of services to students with disabilities under Minnesota Statutes, sections 125A.08, paragraph (b), clause (1); 125A.023; and 125A.027.

C. Nonpublic School Students

The school district may disclose personally identifiable information from the education records of a nonpublic school student, other than a student who receives shared time educational services, without the written consent of the parent of the student or the eligible student unless otherwise provided herein, if the disclosure is:

3. A parent's personal contact information must be treated as private data on individuals regardless of whether that contact information was previously designated as or treated as directory information under Minnesota Statutes,

section 13.32, subdivision 2.

4. When requested, the school district must share personal contact information and directory information, whether public or private, with the Minnesota Department of Education, as required for federal reporting purposes.

B. Former Students

Unless a former student validly opted out of the release of directory information while the student was in attendance and has not rescinded the opt out request at any time, the school district may disclose directory information from the education records generated by it regarding the former student without meeting the requirements of Paragraph C. of this ~~section~~ Article. In addition, under an explicit exclusion from the definition of an "education record," the school district may release records that only contain information about an individual obtained after he or she is no longer a student at the school district and that are not directly related to the individual's attendance as a student (e.g., a student's activities as an alumnus of the school district).

C. Present Students and Parents

The school district may disclose directory information from the education records of a student and information regarding parents without prior written consent of the parent of the student or eligible student, except as provided herein.

1. When conducting the directory information designation and notice process required by federal law, the school district shall give parents and students notice of the right to refuse to let the district designate specified data about the student as directory information.
2. The school district shall give annual notice by any means that are reasonably likely to inform the parents and eligible students of:
 - a. the types of personally identifiable information regarding students and/or parents that the school district has designated as directory information;
 - b. the parent's or eligible student's right to refuse to let the school district designate any or all of those types of information about the student and/or the parent as directory information; and
 - c. the period of time in which a parent or eligible student has to notify the school district in writing that he or she does not want any or all of those types of information about the student and/or the parent designated as directory information.
3. Allow a reasonable period of time after such notice has been given for a parent or eligible student to inform the school district in writing that any or all of the information so designated should not be disclosed without the parent's or eligible student's prior written consent, except as provided in ~~Section Article VI~~ of this policy.
4. A parent or eligible student may not opt out of the directory information disclosures to:
 - a. prevent the school district from disclosing or requiring the student to disclose the student's name, ID, or school district e-mail address in a

class in which the student is enrolled; or

- b. prevent the school district from requiring a student to wear, to display publicly, or to disclose a student ID card or badge that exhibits information that may be designated as directory information and that has been properly designated by the school district as directory information.

- 5. The school district shall not disclose or confirm directory information without meeting the written consent requirements contained in **Section Paragraph VI.A.** of this policy if a student's social security number or other non-directory information is used alone or in combination with other data elements to identify or help identify the student or the student's records.

E. Duration

The designation of any information as directory information about a student or parents will remain in effect for the remainder of the school year unless the parent or eligible student provides the written notifications provided herein.

VIII. DISCLOSURE OF PRIVATE RECORDS

A. Private Records

For the purposes herein, education records are records which are classified as private data on individuals by state law and which are accessible only to the student who is the subject of the data and the student's parent if the student is not an eligible student. The school district may not disclose private records or their contents except as summary data, or except as provided in **Section Article VI.** of this policy, without the prior written consent of the parent or the eligible student. The school district will use reasonable methods to identify and authenticate the identity of parents, students, school officials, and any other party to whom personally identifiable information from education records is disclosed.

B. Private Records Not Accessible to Parent

In certain cases, state law intends, and clearly provides, that certain information contained in the education records of the school district pertaining to a student be accessible to the student alone, and to the parent only under special circumstances, if at all.

1. The responsible authority may deny access to private data by a parent when a minor student who is the subject of that data requests that the responsible authority deny such access. The minor student's request must be submitted in writing setting forth the reasons for denying access to the parent and must be signed by the minor. Upon receipt of such request the responsible authority shall determine if honoring the request to deny the parent access would be in the best interest of the minor data subject. In making this determination the responsible authority shall consider the following factors:
 - a. whether the minor is of sufficient age and maturity to be able to explain the reasons for and understand the consequences of the request to deny access;
 - b. whether the personal situation of the minor is such that denying parental access may protect the minor data subject from physical or emotional harm;
 - c. whether there are grounds for believing that the minor data subject's reasons for precluding parental access are reasonably accurate;
 - d. whether the data in question is of such a nature that disclosure of it to the parent may lead to physical or emotional harm to the minor data subject; and
 - e. whether the data concerns medical, dental or other health services provided pursuant to Minnesota Statutes, sections 144.341-144.347, in which case the data may be released only if the failure to inform the parent would seriously jeopardize the health of the minor.

C. Private Records Not Accessible to Student

Students shall not be entitled to access to private data concerning financial records and statements of the student's parent or any information contained therein.

D. Military-Connected Youth Identifier

When a school district updates its enrollment forms in the ordinary course of business, the school district must include a box on the enrollment form to allow students to self-identify as a military-connected youth. For purposes of this ~~section~~ Paragraph, a "military-connected youth" means having an immediate family member, including a parent or sibling, who is currently in the armed forces either as a reservist or on active duty or has recently retired from the armed forces. Data collected under this provision is private data on individuals, but summary data may be published by the Department of Education.

IX. DISCLOSURE OF CONFIDENTIAL RECORDS

A. Confidential Records

Confidential records are those records and data contained therein which are made not public by state or federal law, and which are inaccessible to the student and the student's parents or to an eligible student.

B. Reports Under the Maltreatment of Minors Reporting Act

Pursuant to Minnesota Statutes, ~~E~~chapter 260E , written copies of reports pertaining

to a neglected and/or physically and/or sexually abused child shall be accessible only to the appropriate welfare and law enforcement agencies. In respect to other parties, such data shall be confidential and will not be made available to the parent or the subject individual by the school district. The subject individual, however, may obtain a copy of the report from either the local welfare agency, county sheriff, or the local police department subject to the provisions of Minnesota Statutes, Chapter 260E.

Regardless of whether a written report is made under Minnesota Statutes, Chapter 260E, as soon as practicable after a school receives information regarding an incident that may constitute maltreatment of a child in a school facility, the school shall inform the parent, legal guardian, or custodian of the child that an incident occurred that may constitute maltreatment of the child, when the incident occurred, and the nature of the conduct that may constitute maltreatment.

C. Investigative Data

Data collected by the school district as part of an active investigation undertaken for the purpose of the commencement or defense of pending civil legal action, or are retained in anticipation of a pending civil legal action are classified as protected nonpublic data in the case of data not on individuals, and confidential data in the case of data on individuals.

1. The school district may make any data classified as protected non-public or confidential pursuant to this subdivision accessible to any person, agency, or the public if the school district determines that such access will aid the law enforcement process, promote public health or safety, or dispel widespread rumor or unrest.
2. A complainant has access to a statement he or she provided to the school district.
3. Parents or eligible students may have access to investigative data of which the student is the subject, but only to the extent the data is not inextricably intertwined with data about other school district students, school district employees, and/or attorney data as defined in Minnesota Statutes, section 13.393.
4. Once a civil investigation becomes inactive, civil investigative data becomes public unless the release of the data would jeopardize another pending civil legal action, except for those portions of such data that are classified as not public data under state or federal law. Any civil investigative data presented as evidence in court or made part of a court record shall be public. For purposes of this provision, a civil investigation becomes inactive upon the occurrence of any of the following events:
 - a. a decision by the school district, or by the chief attorney for the school district, not to pursue the civil legal action. However, such investigation may subsequently become active if the school district or its attorney decides to renew the civil legal action;
 - b. the expiration of the time to file a complaint under the statute of limitations or agreement applicable to the civil legal action; or
 - c. the exhaustion or expiration of rights of appeal by either party to the civil legal action.
5. A "pending civil legal action" for purposes of this subdivision is defined as

including, but not limited to, judicial, administrative, or arbitration proceedings.

D. Chemical Abuse Records

To the extent the school district maintains records of the identity, diagnosis, prognosis, or treatment of any student which are maintained in connection with the performance of any drug abuse prevention function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States, such records are classified as confidential and shall be disclosed only for the purposes and under the circumstances expressly authorized by law.

X. DISCLOSURE OF SCHOOL RECORDS PRIOR TO EXCLUSION OR EXPULSION HEARING

At a reasonable time prior to any exclusion or expulsion hearing, the student and the student's parent or guardian or representative shall be given access to all school district records pertaining to the student, including any tests or reports upon which the action proposed by the school district may be based, pursuant to the Minnesota Pupil Fair Dismissal Act, Minnesota Statutes, section 121A.40, *et seq.*

XI. DISCLOSURE OF DATA TO MILITARY RECRUITING OFFICERS AND ~~POST-SECONDARY~~ POSTSECONDARY EDUCATIONAL INSTITUTIONS

A. The school district will release the names, addresses, electronic mail address (which shall be the electronic mail addresses provided by the school district, if available, that may be released to military recruiting officers only), and home telephone numbers of students in grades 11 and 12 to military recruiting officers and ~~post-secondary~~ ~~postsecondary~~ educational institutions within sixty (60) days after the date of the request unless a parent or eligible student has refused in writing to release this data pursuant to Paragraph C. below.

B. Data released to military recruiting officers under this provision:

1. may be used only for the purpose of providing information to students about military service, state and federal veterans' education benefits, and other career and educational opportunities provided by the military;
2. cannot be further disseminated to any other person except personnel of the recruiting services of the armed forces; and
3. copying fees shall not be imposed.

C. A parent or eligible student has the right to refuse the release of the name, address, electronic mail addresses (which shall be the electronic mail addresses provided by the school, if available, that may be released to military recruiting officers only) or home telephone number to military recruiting officers and ~~post-secondary~~ ~~postsecondary~~ educational institutions. To refuse the release of the above information to military recruiting officers and ~~post-secondary~~ ~~postsecondary~~ educational institutions, a parent or eligible student must notify the responsible authority Executive Director of Business Services and ~~Finance Operations~~ in writing by Oct. 1st each year. The written request must include the following information:

1. Name of student and parent, as appropriate;
2. Home address;
3. Student's grade level;

 5. Parent's legal relationship to student, if applicable;
 6. Specific category or categories of information which are not to be released to military recruiting officers and ~~post-secondary~~ postsecondary educational institutions; and
 7. Specific category or categories of information which are not to be released to the public, including military recruiting officers and ~~post-secondary~~ postsecondary educational institutions.
- D. Annually, the school district will provide public notice by any means that are reasonably likely to inform the parents and eligible students of their rights to refuse to release the names, addresses, and home phone numbers of students in grades 11 and 12 without prior consent.
- E. A parent or eligible student's refusal to release the above information to military recruiting officers and ~~post-secondary~~ postsecondary educational institutions does not affect the school district's release of directory information to the rest of the public, which includes military recruiting officers and ~~post-secondary~~ postsecondary educational institutions. In order to make any directory information about a student private, the procedures contained in ~~Section Article~~ VII. of this policy also must be followed. Accordingly, to the extent the school district has designated the name, address, home phone number, and grade level of students as directory information, absent a request from a parent or eligible student not to release such data, this information will be public data and accessible to members of the public, including military recruiting officers and ~~post-secondary~~ postsecondary educational institutions.

C. Classification of Disclosed Data

The information disclosed shall retain the same classification in the hands of the party receiving it as it had in the hands of the school district.

D. Notification

The school district shall inform the party to whom a disclosure is made of the requirements set forth in this section, except for disclosures made pursuant to court orders or lawfully issued subpoenas, disclosure of directory information under ~~Section Article~~ VII. of this policy, disclosures to a parent or student, or disclosures to parents of a dependent student. In the event that the Family Policy Compliance Office determines that a state or local educational authority, a federal agency headed by an official listed in 34 Code of Federal Regulations, section 99.31(a)(3), or an authorized representative of a state or local educational authority or a federal agency headed by an official listed in section 99.31(a)(3), or a third party outside of the school district improperly rediscloses personally identifiable information from education records or fails to provide notification required under this section of this policy, the school district may not allow that third party access to personally identifiable information from education records for at least five (5) years.

3. ~~Section~~ Subparagraph XIII.E.1. does not apply to requests by or disclosure to a parent of a student or an eligible student, disclosures pursuant to the written consent of a parent of a student or an eligible student, requests by or disclosures to other school officials under ~~Section~~ Subparagraph VI.B.1. of this policy, to requests for disclosures of directory information under ~~Section~~ Article VII. of this policy, or to a party seeking or receiving the records as directed by a federal grand jury or other law enforcement subpoena and the issuing court or agency has ordered that the existence or the contents of the subpoena or

the information provided in response to the subpoena not be disclosed or as directed by an ex parte court order obtained by the United States Attorney General (or designee not lower than an Assistant Attorney General) concerning investigations or prosecutions of an offense listed in 18 United States Code, section 2332b(g)(5)(B) or an act of domestic or international terrorism.

 - b. the parties to whom the school district disclosed the information.
6. The record of requests and disclosures shall be maintained with the education records of the student as long as the school district maintains the student's education records.

XIV. RIGHT TO INSPECT AND REVIEW EDUCATION RECORDS

A. Parent of a Student, an Eligible Student or the Parent of an Eligible Student Who is Also a Dependent Student

The school district shall permit the parent of a student, an eligible student, or the parent of an eligible student who is also a dependent student who is or has been in attendance in the school district to inspect or review the education records of the student, except those records which are made confidential by state or federal law or as otherwise provided in ~~Section Article~~ VIII. of this policy.

B. Response to Request for Access

The school district shall respond to any request pursuant to ~~Subdivision Paragraph~~ A. of this ~~section Article~~ immediately, if possible, or within ten (10) days of the date of the request, excluding Saturdays, Sundays, and legal holidays.

C. Right to Inspect and Review

The right to inspect and review education records under ~~Subdivision Paragraph~~ A. of this section includes:

1. The right to a response from the school district to reasonable requests for explanations and interpretations of records; and
2. If circumstances effectively prevent the parent or eligible student from exercising the right to inspect and review the education records, the school

district shall provide the parent or eligible student with a copy of the records requested or make other arrangements for the parent or eligible student to inspect and review the requested records.

3. Nothing in this policy shall be construed as limiting the frequency of inspection of the education records of a student with a disability by the student's parent or guardian or by the student upon the student reaching the age of majority.

A hearing shall be conducted in accordance with **Subdivision Paragraph C.** of this **section Article**.

1. 2. If, as a result of the hearing, the school district decides that the information is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student, it shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why he or she disagrees with the decision of the school district, or both.

3. Any statement placed in the education records of the student under ~~Subdivision Paragraph~~ B. of this ~~section Article~~ shall:
 - a. be maintained by the school district as part of the education records of the student so long as the record or contested portion thereof is maintained by the school district; and

524 INTERNET, TECHNOLOGY, AND CELL PHONE ACCEPTABLE USE AND SAFETY POLICY

I. PURPOSE

The purpose of this policy is to set forth policies and guidelines for access to the school district computer system and acceptable and safe use of the Internet, including electronic communications.

II. GENERAL STATEMENT OF POLICY

In making decisions regarding student and employee access to the school district computer system and the Internet, including electronic communications, the school district considers its own stated educational mission, goals, and objectives. Electronic information research skills are now fundamental to preparation of citizens and future employees. Access to the school district computer system and to the Internet enables students and employees to explore thousands of libraries, databases, bulletin boards, and other resources while exchanging messages with people around the world. The school district expects that faculty will blend thoughtful use of the school district computer system and the Internet throughout the curriculum and will provide guidance and instruction to students in their use.

III. LIMITED EDUCATIONAL PURPOSE

The school district is providing students and employees with access to the school district computer system, which includes Internet access. The purpose of the system is more specific than providing students and employees with general access to the Internet. The school district system has a limited educational purpose, which includes use of the system for classroom activities, educational research, and professional or career development activities. Users are expected to use Internet access through the district system to further educational and personal goals consistent with the mission of the school district and school policies. Uses which might be acceptable on a user’s private personal account on another system may not be acceptable on this limited-purpose network.

IV. USE OF SYSTEM IS A PRIVILEGE

The use of the school district system and access to use of the Internet is a privilege, not a right. Depending on the nature and degree of the violation and the number of previous violations, unacceptable use of the school district system or the Internet may result in one or more of the following consequences: suspension or cancellation of use or access privileges; payments for damages and repairs; discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment; or civil or criminal liability under other applicable laws.

V. UNACCEPTABLE USES

- A. While not an exhaustive list, the following uses of the school district system and Internet resources or accounts are considered unacceptable:
 - 1. Users will not use the school district system to access, review, upload, download, store, print, post, receive, transmit, or distribute:
 - a. pornographic, obscene, or sexually explicit material or other visual depictions that are harmful to minors;

- b. obscene, abusive, profane, lewd, vulgar, rude, inflammatory, threatening, disrespectful, or sexually explicit language;
 - c. materials that use language or images that are inappropriate in the education setting or disruptive to the educational process;
 - d. information or materials that could cause damage or danger of disruption to the educational process;
 - e. materials that use language or images that advocate violence or discrimination toward other people (hate literature) or that may constitute harassment or discrimination.
2. Users will not use the school district system to knowingly or recklessly post, transmit, or distribute false or defamatory information about a person or organization, or to harass another person, or to engage in personal attacks, including prejudicial or discriminatory attacks.
 3. Users will not use the school district system to engage in any illegal act or violate any local, state, or federal statute or law.
 4. Users will not use the school district system to vandalize, damage, or disable the property of another person or organization, will not make deliberate attempts to degrade or disrupt equipment, software, or system performance by spreading computer viruses or by any other means, will not tamper with, modify, or change the school district system software, hardware, or wiring or take any action to violate the school district's security system, and will not use the school district system in such a way as to disrupt the use of the system by other users.
 5. Users will not use the school district system to gain unauthorized access to information resources or to access another person's materials, information, or files without the implied or direct permission of that person.
 6. Users will not use the school district system to post private information about another person, personal contact information about themselves or other persons, or other personally identifiable information, including, but not limited to, addresses, telephone numbers, school addresses, work addresses, identification numbers, account numbers, access codes or passwords, labeled photographs, or other information that would make the individual's identity easily traceable, and will not repost a message that was sent to the user privately without permission of the person who sent the message.
 - a. This paragraph does not prohibit the posting of employee contact information on school district webpages or communications between employees and other individuals when such communications are made for education-related purposes (i.e., communications with parents or other staff members related to students).
 - b. Employees creating or posting school-related webpages may include personal contact information about themselves on a webpage. However, employees may not post personal contact information or other personally identifiable information about students unless:
 - (1) such information is classified by the school district as directory

information and verification is made that the school district has not received notice from a parent/guardian or eligible student that such information is not to be designated as directory information in accordance with Policy 515; or

- (2) such information is not classified by the school district as directory information but written consent for release of the information to be posted has been obtained from a parent/guardian or eligible student in accordance with Policy 515.

In addition, prior to posting any personal contact or personally identifiable information on a school-related webpage, employees shall obtain written approval of the content of the postings from the building administrator.

- c. These prohibitions specifically prohibit a user from utilizing the school district system to post personal information about a user or another individual on ~~social networks~~ **all current and emerging social media platforms or digital communities**, including, but not limited to, social networks such as "Facebook," "Twitter," "Instagram," "Snapchat," "TikTok," "Reddit," and similar websites or applications.
7. ~~Users must keep all account information and passwords on file with the designated school district official.~~ Users will not attempt to gain unauthorized access to the school district system or any other system through the school district system, attempt to log in through another person's account, or use computer accounts, access codes, or network identification other than those assigned to the user. Messages and records on the school district system may not be encrypted without the permission of appropriate school authorities. **When available and required, multi-factor authentication must be setup and utilized. Multi-factor authentication devices (i.e. Yubikey or other hardware key), access codes and passwords must be kept secure and must not be shared.**
8. Users will not use the school district system to violate copyright laws or usage licensing agreements, or otherwise to use another person's property without the person's prior approval or proper citation, including the downloading or exchanging of pirated software or copying software to or from any school computer, and will not plagiarize works they find on the Internet.
9. Users will not use the school district system for conducting business, for unauthorized commercial purposes, or for financial gain unrelated to the mission of the school district. Users will not use the school district system to offer or provide goods or services or for product advertisement. Users will not use the school district system to purchase goods or services for personal use without authorization from the appropriate school district official.
10. Users will not use the school district system to engage in bullying or cyberbullying in violation of the school district's Bullying Prohibition Policy. This prohibition includes using any technology or other electronic communication off school premises to the extent that student learning or the school environment is substantially and materially disrupted.
11. **Virtual Private Networks (VPNs) and proxy servers are not permitted for use on district devices, aside from VPNs provided by the district for specific authorized users.**

- B. The school district has a special interest in regulating off-campus speech that materially disrupts classwork or involves substantial disorder or invasion of the rights of others. A student or employee engaging in the foregoing unacceptable uses of the Internet when off school district premises also may be in violation of this policy as well as other school district policies. Examples of such violations may include, but are not limited to, serious or severe bullying or harassment targeting particular individuals, threats aimed at teachers or other students, failure to follow rules concerning lessons, the writing of papers, the use of computers, or participation in other online school activities, and breaches of school security devices. If the school district receives a report of an unacceptable use originating from a non-school computer or resource, the school district may investigate such reports to the best of its ability. Students or employees may be subject to disciplinary action for such conduct, including, but not limited to, suspension or cancellation of the use or access to the school district computer system and the Internet and discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment.
- C. If a user inadvertently accesses unacceptable materials or an unacceptable Internet site, the user shall immediately disclose the inadvertent access to an appropriate school district official. In the case of a school district employee, the immediate disclosure shall be to the employee's immediate supervisor and/or the building administrator. This disclosure may serve as a defense against an allegation that the user has intentionally violated this policy. In certain rare instances, a user also may access otherwise unacceptable materials if necessary to complete an assignment and if done with the prior approval of and with appropriate guidance from the appropriate teacher or, in the case of a school district employee, the building administrator.

VI. FILTER

[NOTE: The 2025 Minnesota legislature amended Minnesota Statutes 125B.15 as follows: "A school district receiving technology revenue under section 125B.26 must prohibit, including through use of available software filtering technology or other effective methods, adult access to material that under federal or state law is reasonably believed to be obscene or child pornography."]

- A. With respect to any of its computers with Internet access, the school district will monitor the online activities of both minors and adults and employ technology protection measures during any use of such computers by minors and adults. The technology protection measures utilized will block or filter Internet access to any visual depictions that are:
 - 1. Obscene;
 - 2. Child pornography; or
 - 3. Harmful to minors.
- B. The term "harmful to minors" means any picture, image, graphic image file, or other visual depiction that:
 - 1. Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or
 - 2. Depicts, describes, or represents, in a patently offensive way with respect to

what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and

3. Taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.
- C. Software filtering technology shall be narrowly tailored and shall not discriminate based on viewpoint.
- D. An administrator, supervisor, or other person authorized by the Superintendent may disable the technology protection measure, during use by an adult, to enable access for bona fide research or other lawful purposes.
- E. The school district will educate students about appropriate online behavior, including interacting with other individuals **in digital communities**, ~~on social networking websites and in chat rooms and~~ **responsible use of Artificial Intelligence**, and cyberbullying awareness and response.

VII. CONSISTENCY WITH OTHER SCHOOL POLICIES

Use of the school district computer system, ~~and use of the~~ Internet **and related tools including Artificial Intelligence** shall be consistent with school district policies and the mission of the school district.

VIII. LIMITED EXPECTATION OF PRIVACY

- A. By authorizing use of the school district system, the school district does not relinquish control over materials on the system or contained in files on the system. Users should expect only limited privacy in the contents of personal files on the school district system.
- B. Routine maintenance and monitoring of the school district system may lead to a discovery that a user has violated this policy, another school district policy, or the law.
- C. An individual investigation or search will be conducted if school authorities have a reasonable suspicion that the search will uncover a violation of law or school district policy.
- D. Parents may have the right at any time to investigate or review the contents of their child's files and e-mail files in accordance with the school district's Protection and Privacy of Pupil Records Policy. Parents have the right to request the termination of their child's individual account at any time.
- E. School district employees should be aware that the school district retains the right at any time to investigate or review the contents of their files and e-mail files. In addition, school district employees should be aware that data and other materials in files maintained on the school district system may be subject to review, disclosure, or discovery under Minnesota Statutes chapter 13 (Minnesota Government Data Practices Act).
- F. The school district will cooperate fully with local, state and federal authorities in any investigation concerning or related to any illegal activities or activities not in compliance with school district policies conducted through the school district system.

IX. INTERNET USE AGREEMENT

- A. The proper use of the Internet, and the educational value to be gained from proper Internet use, is the joint responsibility of students, parents, and employees of the school district.
- B. This policy requires the permission of and supervision by the school's designated professional staff before a student may use a school account or resource to access the Internet.
- ~~C. The Internet Use Agreement form for students must be read and signed by the user, the parent or guardian, and the supervising teacher. The Internet Use Agreement form for employees must be signed by the employee. The form must then be filed at the school office. As supervising teachers change, the agreement signed by the new teacher shall be attached to the original agreement.~~

X. LIMITATION ON SCHOOL DISTRICT LIABILITY

Use of the school district system is at the user's own risk. The system is provided on an "as is, as available" basis. The school district will not be responsible for any damage users may suffer, including, but not limited to, loss, damage, or unavailability of data stored on school district diskettes, tapes, hard drives, cloud storage or servers, or for delays or changes in or interruptions of service or misdeliveries or nondeliveries of information or materials, regardless of the cause. The school district is not responsible for the accuracy or quality of any advice or information obtained through or stored on the school district system. The school district will not be responsible for financial obligations arising through unauthorized use of the school district system or the Internet.

XI. USER NOTIFICATION

- A. All users shall be notified of the school district policies relating to Internet use.
- B. This notification shall include the following:
 - 1. Notification that Internet use is subject to compliance with school district policies.
 - 2. Disclaimers limiting the school district's liability relative to:
 - a. Information stored on school district diskettes, hard drives, ~~or~~ servers or cloud storage.

5. Notification that goods and services can be purchased over the Internet that could potentially result in unwanted financial obligations and that any financial obligation incurred by a student through the Internet is the sole responsibility of the student and/or the student's parents.
6. Notification that the collection, creation, reception, maintenance, and dissemination of data via the Internet, including electronic communications, is governed by Public and Private Personnel Data Policy, and Protection and Privacy of Pupil Records Policy.
7. Notification that, should the user violate the school district's acceptable use policy, the user's access privileges may be revoked, school disciplinary action may be taken and/or appropriate legal action may be taken.
8. Notification that all provisions of the acceptable use policy are subordinate to local, state, and federal laws.

XII. PARENTS' RESPONSIBILITY; NOTIFICATION OF STUDENT INTERNET USE

- A. Outside of school, parents bear responsibility for the same guidance of Internet use as they exercise with information sources such as television, telephones, radio, movies, and other possibly offensive media. Parents are responsible for monitoring their student's use of the school district system and of the Internet if the student is accessing the school district system from home or a remote location.
- B. Parents will be notified that their students will be using school district resources/accounts to access the Internet and that the school district will provide parents the option to request alternative activities not requiring Internet access. This notification should include:
 1. A copy of the user notification form provided to the student user.
 2. A description of parent/guardian responsibilities.
 3. A notification that the parents have the option to request alternative educational activities not requiring Internet access and the material to exercise this option.
 4. ~~A statement that the Internet Use Agreement must be signed by the user, the parent or guardian, and the supervising teacher prior to use by the student.~~
 5. A statement that the school district's acceptable use policy is available for parental review.

XIII. NOTIFICATION REGARDING TECHNOLOGY PROVIDERS

- A. "Technology provider" means a person who:

1. contracts with the school district, as part of a one-to-one program or otherwise, to provide a school-issued device for student use; and
 2. creates, receives, or maintains educational data pursuant or incidental to a contract with the school district.
- B. "Parent" means a parent of a student and includes a natural parent, a guardian, or an individual acting as a parent in the absence of a parent or a guardian.
- C. Within 30 days of the start of each school year, the school district must give parents and students direct and timely notice, by United States mail, e-mail, or other direct form of communication, of any curriculum, testing, or assessment technology provider contract affecting a student's educational data. The notice must:
1. identify each curriculum, testing, or assessment technology provider with access to educational data;
 2. identify the educational data affected by the curriculum, testing, or assessment technology provider contract; and
 3. include information about the contract inspection and provide contact information for a school department to which a parent or student may direct questions or concerns regarding any program or activity that allows a curriculum, testing, or assessment technology provider to access a student's educational data.
- D. The school district must provide parents and students an opportunity to inspect a complete copy of any contract with a technology provider.
- E. A contract between a technology provider and the school district must include requirements to ensure appropriate security safeguards for educational data. The contract must require that:
1. the technology provider's employees or contractors have access to educational data only if authorized; and
 2. the technology provider's employees or contractors may be authorized to access educational data only if access is necessary to fulfill the official duties of the employee or contractor.
- F. All educational data created, received, maintained, or disseminated by a technology provider pursuant or incidental to a contract with a public educational agency or institution are not the technology provider's property.

XIV. SCHOOL-ISSUED DEVICES

- A. "School-issued device" means hardware or software that the school district, acting independently or with a technology provider, provides to an individual student for that student's ~~dedicated~~ ~~personal~~ use. A school-issued device includes a device issued through a one-to-one program.
- B. Except as provided in paragraph C, the school district or a technology provider must not electronically access or monitor:

1. any location-tracking feature of a school-issued device;
 2. any audio or visual receiving, transmitting, or recording feature of a school issued device; or
 3. student interactions with a school-issued device, including but not limited to keystrokes and web-browsing activity.
- C. The school district or a technology provider may only engage in activities prohibited by paragraph B if:
1. the activity is limited to a noncommercial educational purpose for instruction, technical support, or exam-proctoring by school district employees, student teachers, staff contracted by the school district, a vendor, or the Minnesota Department of Education, and notice is provided in advance;
 2. the activity is permitted under a judicial warrant;
 3. the school district is notified or becomes aware that the device is missing or stolen;
 4. the activity is necessary to respond to an imminent threat to life or safety and the access is limited to that purpose;
 5. the activity is necessary to comply with federal or state law, including but not limited to Minnesota Statutes section 121A.031; or
 6. the activity is necessary to participate in federal or state funding programs, including but not limited to the E-Rate program.
- D. If the school district or a technology provider interacts with a school-issued device as provided in paragraph C, clause 4, it must, within 72 hours of the access, notify the student to whom the school-issued device was issued or that student's parent/guardian and provide a written description of the interaction, including which features of the device were accessed and a description of the threat. This notice is not required at any time when the notice itself would pose an imminent threat to life or safety, but must instead be given within 72 hours after that imminent threat has ceased.

XV. CELL PHONE USE

The school board directs the superintendent and school district administration to establish rules and procedures regarding student possession and use of cell phones in schools. These rules and procedures should seek to minimize the impact of cell phones on student behavior, mental health, and academic attainment. These rules and procedures may be designed for specific school buildings, grade levels, or similar criteria.

[NOTE: In 2024, the Minnesota legislature enacted a law requiring that school districts adopt a policy on students' possession and use of cell phones in school by March 15, 2025. This law does not state that school districts must incorporate specific language or provisions in the school district policy.]

MSBA recognizes the common practice of setting forth cell phone rules in a student handbook or similar document. This Article directs school administration to establish

cell phone rules, which the school board may require be presented to the board for approval. This approach enables administrators to craft flexible and specific rules that are specific to grade levels and buildings. The school board may choose to set forth general principles regarding cell phone use in this Article.

~~Under the new law, T~~he Minnesota Elementary School Principals Association and the Minnesota Association of Secondary School Principals ~~will collaborated~~ to make best practices available to schools on a range of different strategies to achieve the goals stated above.]

XVI. LIMIT ON SCREEN TIME FOR CHILDREN IN PRESCHOOL AND KINDERGARTEN

A child in a publicly funded preschool or kindergarten program may not use an individual-use screen, such as a tablet, smartphone, or other digital media, without engagement from a teacher or other students. This section does not apply to a child for whom the school has an individualized family service plan, an individualized education program, or a 504 plan in effect.

XVII. IMPLEMENTATION; POLICY REVIEW

- A. The school district administration may develop appropriate user notification forms, guidelines, and procedures necessary to implement this policy for submission to the school board for approval. Upon approval by the school board, such guidelines, forms, and procedures shall be an addendum to this policy.
- B. The administration shall revise the user notifications, including student and parent notifications, if necessary, to reflect the adoption of these guidelines and procedures.
- C. The school district Internet policies and procedures are available for review by all parents, guardians, staff, and members of the community.
- D. Because of the rapid changes in the development of the Internet, the school board shall conduct an annual review of this policy.

722 PUBLIC DATA AND DATA SUBJECT REQUESTS

I. PURPOSE

The school district recognizes its responsibility relative to the collection, maintenance, and dissemination of public data as provided in state statutes.

II. GENERAL STATEMENT OF POLICY

The school district will comply with the requirements of the Minnesota Government Data Practices Act, Minnesota Statutes chapter 13 (MGDPA), and Minnesota Rules parts 1205.0100-1205.2000 in responding to requests for public data.

III. DEFINITIONS

A. Confidential Data on Individuals

Data made not public by statute or federal law applicable to the data and are inaccessible to the individual subject of those data.

B. Data on Individuals

All government data in which any individual is or can be identified as the subject of that data, unless the appearance of the name or other identifying data can be clearly demonstrated to be only incidental to the data and the data are not accessed by the name or other identifying data of any individual.

C. Data Practices Compliance Officer

The data practices compliance official is the designated employee of the school district to whom persons may direct questions or concerns regarding problems in obtaining access to data or other data practices problems. The responsible authority may be the data practices compliance official.

D. Government Data

All data collected, created, received, maintained or disseminated by any government entity regardless of its physical form, storage media or conditions of use.

E. Individual

"Individual" means a natural person. In the case of a minor or an incapacitated person as defined in Minnesota Statutes section 524.5-102, subdivision 6, "individual" includes a parent or guardian or an individual acting as a parent or guardian in the absence of a parent or guardian, except that the responsible authority shall withhold data from parents or guardians, or individuals acting as parents or guardians in the absence of parents or guardians, upon request by the minor if the responsible authority determines that withholding the data would be in the best interest of the minor.

F. Inspection

"Inspection" means the visual inspection of paper and similar types of government data. Inspection does not include printing copies by the school district, unless printing a copy is the only method to provide for inspection of the data. For data stored in electronic form and made available in electronic form on a remote access basis to the public by the school district, typically through an online portal or the government entity's website, inspection includes remote access to the data by the public and the

ability to print copies of or download the data on the public's own computer equipment.

G. Not Public Data

Any government data classified by statute, federal law, or temporary classification as confidential, private, nonpublic, or protected nonpublic.

H. Nonpublic Data

Data not on individuals made by statute or federal law applicable to the data: (a) not accessible to the public; and (b) accessible to the subject, if any, of the data.

I. Private Data on Individuals

Data made by statute or federal law applicable to the data: (a) not public; and (b) accessible to the individual subject of those data.

J. Protected Nonpublic Data

Data not on individuals made by statute or federal law applicable to the data (a) not public and (b) not accessible to the subject of the data.

K. Public Data

All government data collected, created, received, maintained, or disseminated by the school district, unless classified by statute, temporary classification pursuant to statute, or federal law, as nonpublic or protected nonpublic; or, with respect to data on individuals, as private or confidential.

L. Public Data Not on Individuals

Data accessible to the public pursuant to Minnesota Statutes section 13.03.

M. Public Data on Individuals

Data accessible to the public in accordance with the provisions of section 13.03.

N. Responsible Authority

The individual designated by the school board as the individual responsible for the collection, use, and dissemination of any set of data on individuals, government data, or summary data, unless otherwise provided by state law. Until an individual is designated by the school board, the responsible authority is the superintendent.

O. Summary Data

Statistical records and reports derived from data on individuals but in which individuals are not identified and from which neither their identities nor any other characteristic that could uniquely identify an individual is ascertainable. Unless classified pursuant to Minnesota Statutes section 13.06, another statute, or federal law, summary data is public.

IV. REQUESTS FOR PUBLIC DATA

A. All requests for public data must be made in writing using the data practices form and directed to the responsible authority.

1. A request for public data must include the following information:

- a. Date the request is made;
 - b. A clear description of the data requested;
 - c. Identification of the form in which the data is to be provided (e.g., inspection, copying, both inspection and copying, etc.); and
 - d. Method to contact the requestor (such as phone number, address, or email address).
2. Unless specifically authorized by statute, the school district may not require persons to identify themselves, state a reason for, or justify a request to gain access to public government data. A person may be asked to provide certain identifying or clarifying information for the sole purpose of facilitating access to the data.
 3. The identity of the requestor is public, if provided, but cannot be required by the government entity.
 4. The responsible authority may seek clarification from the requestor if the request is not clear before providing a response to the data request.
- B. The responsible authority will respond to a data request at reasonable times and places as follows:
1. The responsible authority will notify the requestor in writing as follows:
 - a. The requested data does not exist; or
 - b. The requested data does exist but either all or a portion of the data is not accessible to the requestor; or
 - (1) If the responsible authority determines that the requested data is classified so that access to the requestor is denied, the responsible authority will inform the requestor of the determination in writing, as soon thereafter as possible, and shall cite the specific statutory section, temporary classification, or specific provision of federal law on which the determination is based.
 - (2) Upon the request of a requestor who is denied access to data, the responsible authority shall certify in writing that the request has been denied and cite the specific statutory section, temporary classification, or specific provision of federal law upon which the denial was based.
 - ~~c. The requested data does exist and provide arrangements for inspection of the data, identify when the data will be available for pick-up, or indicate that the data will be sent by mail. If the requestor does not appear at the time and place established for inspection of the data or the data is not picked up within ten (10) business days after the requestor is notified, the school district will conclude that the data is no longer wanted and will consider the request closed.~~
 2. The school district's response time may be affected by the size and complexity of the particular request, including necessary redactions of the data, and also

by the number of requests made within a particular period of time.

3. The school district will provide an explanation of technical terminology, abbreviations, or acronyms contained in the responsive data on request.
4. The school district is not required by the MGDPA to create or collect new data in response to a data request, or to provide responsive data in a specific form or arrangement if the school district does not keep the data in that form or arrangement.
5. The school district is not required to respond to questions that are not about a particular data request or requests for data in general.

- C. If the school district notifies the requesting person that responsive data or copies are available for inspection or collection, and the requesting person does not inspect the data or collect the copies within five (5) business days of the notification, the school district may suspend any further response to the request until the requesting person inspects the data that has been made available, or collects and pays for the copies that have been produced.

[NOTE: The 2025 Minnesota legislature enacted Paragraph C.]

V. REQUEST FOR SUMMARY DATA

- A. All requests for the preparation of summary data must be made in writing using the data practices form and directed to the responsible authority.
1. A request for the preparation of summary data must include the following information:
 - a. Date the request is made;
 - b. A clear description of the data requested;
 - c. Identify the form in which the data is to be provided (e.g., inspection, copying, both inspection and copying, etc.); and
 - d. Method to contact requestor (phone number, address, or email address).
- B. The responsible authority will respond within ten (10) business days of the receipt of a request to prepare summary data and inform the requestor of the following:
1. The estimated costs of preparing the summary data, if any; and
 2. The summary data requested; or
 3. A written statement describing a time schedule for preparing the requested summary data, including reasons for any time delays; or
 4. A written statement describing the reasons why the responsible authority has determined that the requestor's access would compromise the private or confidential data.
- C. The school district may require the requestor to pre-pay all or a portion of the cost of creating the summary data before the school district begins to prepare the summary data.

VI. DATA BY AN INDIVIDUAL DATA SUBJECT

- A. Collection and storage of all data on individuals and the use and dissemination of private and confidential data on individuals shall be limited to that necessary for the administration and management of programs specifically authorized by the legislature or local governing body or mandated by the federal government.
- B. Private or confidential data on an individual shall not be collected, stored, used, or disseminated by the school district for any purposes other than those stated to the individual at the time of collection in accordance with Minnesota Statutes section 13.04, except as provided in Minnesota Statutes section 13.05, subdivision 4.
- C. Upon request to the responsible authority or designee, an individual shall be informed whether the individual is the subject of stored data on individuals, and whether it is classified as public, private or confidential. Upon further request, an individual who is the subject of stored private or public data on individuals shall be shown the data without any charge and, if desired, shall be informed of the content and meaning of that data.
- D. After an individual has been shown the private data and informed of its meaning, the data need not be disclosed to that individual for six (6) months thereafter unless a dispute or action pursuant to this section is pending or additional data on the individual has been collected or created.
- E. The responsible authority or designee shall provide copies of the private or public data upon request by the individual subject of the data. The responsible authority or designee may require the requesting person to pay the actual costs of making and certifying the copies.
- F. The responsible authority or designee shall comply immediately, if possible, with any request made pursuant to this subdivision, or within ten (10) days of the date of the request, excluding Saturdays, Sundays and legal holidays, if immediate compliance is not possible.
- G. An individual subject of the data may contest the accuracy or completeness of public or private data. To exercise this right, an individual shall notify in writing the responsible authority describing the nature of the disagreement. The responsible authority shall within 30 (30) days either: (1) correct the data found to be inaccurate or incomplete and attempt to notify past recipients of inaccurate or incomplete data, including recipients named by the individual; or (2) notify the individual that the authority believes the data to be correct. Data in dispute shall be disclosed only if the individual's statement of disagreement is included with the disclosed data.
- H. The determination of the responsible authority may be appealed by a data subject pursuant to the provisions of the Administrative Procedure Act relating to contested cases. Upon receipt of an appeal by an individual, the eCommissioner of the Minnesota Department of Administration ("Commissioner") shall, before issuing the order and notice of a contested case hearing required by Minnesota Statutes, chapter 14, try to resolve the dispute through education, conference, conciliation, or persuasion. If the parties consent, the eCommissioner may refer the matter to mediation. Following these efforts, the eCommissioner shall dismiss the appeal or issue the order and notice of hearing.
- I. Data on individuals that have been successfully challenged by an individual must be completed, corrected, or destroyed by a government entity without regard to the requirements of Minnesota Statutes section 138.17.
- J. After completing, correcting, or destroying successfully challenged data, the school district may retain a copy of the eCommissioner's ~~of administration's~~ order issued

under Minnesota Statutes, chapter 14 or, if no order were issued, a summary of the dispute between the parties that does not contain any particulars of the successfully challenged data.

VII. REQUESTS FOR DATA BY AN INDIVIDUAL SUBJECT OF THE DATA

- A. All requests for individual subject data must be made in writing directed to the responsible authority.
- B. A request for individual subject data must include the following information:
 - 1. Statement that one is making a request as a data subject for data about the individual or about a student for whom the individual is the parent or guardian;
 - 2. Date the request is made;
 - 3. A clear description of the data requested;
 - 4. Proof that the individual is the data subject or the data subject's parent or guardian;
 - 5. Identification of the form in which the data is to be provided (e.g., inspection, copying, both inspection and copying, etc.); and
 - 6. Method to contact the requestor (such as phone number, address, or email address).
- C. The identity of the requestor of private data is private.
- D. The responsible authority may seek clarification from the requestor if the request is not clear before providing a response to the data request.
- E. Policy 515 (Protection and Privacy of Pupil Records) addresses requests of students or their parents for educational records and data.

VIII. COSTS

- A. Public Data
 - 1. The school district will charge for copies provided as follows:
 - a. **One hundred (100)** or fewer pages of black and white, letter or legal sized paper copies will be charged at **twenty-five (25)** cents for a one-sided copy or **fifty (50)** cents for a two-sided copy.
 - b. More than **one hundred (100)** pages or copies of other materials are charged based upon the actual cost of searching for and retrieving the data and making the copies or electronically sending the data, unless the cost is specifically set by statute or rule.
 - (1) The actual cost of making copies includes employee time, the cost of the materials onto which the data is copied (paper, CD, DVD, etc.), and mailing costs (if any).
 - (2) Also, if the school district does not have the capacity to make the copies, e.g., photographs, the actual cost paid by the

school district to an outside vendor will be charged.

2. All charges must be paid for [in cash, check, or online service] in advance of receiving the copies.

B. Summary Data

1. Any costs incurred in the preparation of summary data shall be paid by the requestor prior to preparing or supplying the summary data.
2. The school district may assess costs associated with the preparation of summary data as follows:
 - a. The cost of materials, including paper, the cost of the labor required to prepare the copies, any schedule of standard copying charges established by the school district, any special costs necessary to produce such copies from a machine-based record-keeping system, including computers and microfilm systems;
 - b. The school district may consider the reasonable value of the summary data prepared and, where appropriate, reduce the costs assessed to the requestor.

C. Data Belonging to an Individual Subject

1. The responsible authority or designee may require the requesting person to pay the actual costs of making and certifying the copies.

The responsible authority shall not charge the data subject any fee in those instances where the data subject only desires to view private data.

The responsible authority or designee may require the requesting person to pay the actual costs of making and certifying the copies. Based on the factors set forth in Minnesota Rule 1205.0300, subpart 4, the school district determines that a reasonable fee would be the charges set forth in section VIII.A of this policy that apply to requests for data by the public.

2. The school district may not charge a fee to search for or to retrieve educational records of a child with a disability by the child's parent or guardian or by the child upon the child reaching the age of majority.

IX. Annual Review and Posting

- A. The responsible authority shall prepare a written data access policy and a written policy for the rights of data subjects (including specific procedures the school district uses for access by the data subject to public or private data on individuals). The responsible authority shall update the policies no later than August 1 of each year, and at any other time as necessary to reflect changes in personnel, procedures, or other circumstances that impact the public's ability to access data.
- B. Copies of the policies shall be easily available to the public by distributing free copies to the public or by posting the policies in a conspicuous place within the school district that is easily accessible to the public or by posting them on the school district's website.

~~515.1R — COLLECTION, MAINTENANCE, AND DISSEMINATION OF STUDENT RECORDS AND INFORMATION~~

~~The Superintendent shall approve administrative regulations, which establish procedures and practices in regard to student records to:~~

- ~~1. Ensure that information and data collected from and about students by staff personnel will be used for the educational benefit of the students and attainment of the School District's educational goals and objectives.~~
- ~~2. Ensure that such information and data, be it manually or electronically stored, shall not be released to an unauthorized third party or parties without the written consent of the student and his/her parent or guardian.~~
- ~~3. Grant the student and/or his/her parent or guardian access to all school records pertaining to that student within a reasonable period of time following receipt of a written request by the principal or other designated staff member. If the student is eighteen years of age or older, only he/she may have access to those records, and the student must provide written consent prior to release of his/her records to a third party. The term "third party" includes parents.~~
- ~~4. Permit parents and/or their child the opportunity to challenge alleged inaccurate information within the student's record.~~
- ~~5. Ensure School District compliance with all federal and state statutes, as well as State Board of Education regulations, designed to protect the confidentiality and privacy rights of students and families. In accordance with these requirements, staff will be notified about students with communicable diseases if the information is necessary to provide an appropriate education or if special precautions are required. In accordance with the above requirements, the written permission of the students' parent or legal guardian must be secured.~~

Designation of a Responsible Authority

~~The School Board designates the Superintendent as the responsible authority having jurisdiction over all data collected and maintained on individuals.~~

~~The duties include:~~

- ~~1. Establishment of procedures and safeguards to ensure that information contained in records is accurate, complete, current, and available.~~
- ~~2. General supervision of collection and storage of data and use and dissemination of data to ensure that such activities are limited to those necessary for the administration and management of authorized programs.~~
- ~~3. Appointment of an individual to be responsible for each file or system containing data on individuals.~~
- ~~4. Document and file a report by August 1 of each year with the Minnesota Commissioner of Administration concerning the nature of all data on individuals which is collected and stored, the need for all, and intended use of such data.~~

515.2R — RIGHTS OF STUDENTS AND PARENTS OR GUARDIANS REGARDING DATA COLLECTION

~~When school officials collect private data for student records, the student's parent or guardian, or the student if age eighteen years or older, shall be informed of the following: —~~

- ~~1. Purpose and intended use of the data collected.~~
- ~~2. Whether he/she may refuse or is legally required to supply the data.~~
- ~~3. Possible consequences of supplying or refusing to supply requested information.~~
- ~~4. The identity of persons or entities authorized by state or federal law to receive the data.~~

~~Data Collection Requiring Written Consent~~

~~Plans for personality testing, diagnostic and assessment, and any other individual testing should proceed only with informed written consent of the student's parent or guardian. When such consent is required, the student's consent should also be obtained in those instances wherein he/she understands the nature and consequence of such data collection. When a student reaches the age of eighteen, or is married whether eighteen or not, his/her consent alone must be obtained.~~

~~Parents and students are to be fully informed, in writing, as to the methods by which the data will be collected and the purposes for which the data will be utilized.~~

~~This type of data gathering will be done only by qualified professional staff members.~~

~~As noted above, private or confidential data collected on an individual shall not be collected, stored, used, or disseminated by the district for purposes other than those stated to the individual at the time of collection.~~

~~Data Collection Through Interview~~

~~Certain special problems are presented in gathering data in student interviews by counselors, social workers, nurses, administrators, and psychologists. In most of these situations the requirement of informed consent may not be met, perhaps because of the unforeseeable course of the interview process. It is the responsibility of the professional staff member to help the student understand the implications of the interview situation, to protect the rights of the student regarding confidentiality of information obtained, and to stress the voluntary character of the student's participation. The professional should seek parental consent and perhaps involvement when the student is clearly in need of intervention but declines to participate.~~

~~Examination of Records~~

~~Upon written request, an individual shall be informed as to whether he/she is the subject of stored data. Upon further request, the individual, or parent or guardian in the case of a minor, shall be shown the data within a reasonable period of time and without any charge.~~

~~(Upon request of the individual, parent or guardian, provision for access to the records must~~

~~be made no later than 45 days after the request has been made.) A school official competent in interpreting records should be available to explain the meaning and implications of certain data included in the records.~~

~~After being shown and informed about data contained within the records, the student, parent or guardian need not be given access to the data again for six months thereafter, unless additional data has been collected. An entry in the Record of Inspection shall also be completed.~~

~~The School District shall provide copies of the records upon request of the subject individual, parent or guardian in the case of a minor, providing that the cost of such reproduction is borne by the requesting individual.~~

Exceptions

- ~~1. Desk Drawer Information: Student records maintained by instructional personnel are not deemed School District data and need not be disclosed to the student, parent or guardian if they meet all of the following qualifications:
 - a. They are in the sole possession of the maker;
 - b. They are not accessible or revealed to any other individual except a substitute teacher; and
 - c. They are destroyed at the end of the school year.~~
- ~~2. The Superintendent, or his/her designee, is required to provide notification to minor students of their right to request denial of access to the parent or guardian. The Superintendent, or his/her designee, has the authority to withhold certain data from parents or guardians if the Superintendent, or his designee, determine that withholding the data would be in the best interests of the minor student. Such notification should be made part of the student bulletin at each school building or should be included in the Directory Information notice to households.~~

Right to Challenge Student Records

~~Following the examination of a student's records by the student, parent or guardian, he/she may elect to contest the accuracy of completeness of the records. If so, the following procedures are to be observed:~~

- ~~1. The student or parent is to notify the responsible authority in writing, describing the nature of the challenge.~~
- ~~2. The responsible authority shall, within thirty (30) days, correct or delete the data if it is found to be inaccurate, incomplete, or irrelevant. He/she must also attempt to notify past recipients of the correcting actions.~~
- ~~3. If the responsible authority finds the data to be accurate and complete, he/she will notify the contesting individual within thirty (30) days that the alleged inaccuracy, incompleteness, or irrelevancy is denied.~~
- ~~4. Should the student or parent choose to appeal the responsible authority's determination, an impartial review panel shall be established by the Superintendent.~~

~~The burden of proof as to the accuracy of the record shall be on the School District. If the review panel finds the information to be inaccurate, incomplete, or irrelevant, the records shall be corrected.~~

- ~~5. Should the review panel support the responsible authority's contention that the record is accurate, complete, and relevant, the student and his/her parent or guardian shall have the right to prepare and sign written objections to the information. The written objections shall be made a permanent part of the record in question.~~

Warning to Staff Members Regarding Written Statements

~~Notes or anecdotal records made by professional staff members regarding a student do not enjoy immunity from charges of libel or slander. If placed in a student's record and exposed to public view, such notes may well be used as a basis for legal action. It is recommended that anecdotal records contain only factual statements and be devoid of value judgments and personal opinions.~~

When a student is enrolled, who has transferred from another school within the School District, the receiving school shall notify the sending school of said enrollment and shall request all records pertaining to the enrollee. The transfer of such records shall not require the written permission of either student, parent or guardian providing the disclosure is to other school officials, including teachers, that are determined to have legitimate educational interests in the information. Records to be transferred include: the Permanent Record Card, the Cumulative File, Health Records, and the Clinical File should one be in existence. Principals are responsible for safe and efficient records transfer. All students including homeless students* will be immediately enrolled.

The School District shall receive written verification prior to the transfer that the transferee will not permit any other party to have access to such information without the written consent of the parent or guardian of the student.

Whenever possible and practical, written permission to release individual student information should be the method of choice. The use of Release of Personal Information Form, or a comparable form, will accomplish the requirement for signed release should the need arise. The above conditions also apply to applications of high school students sent to post-secondary institutions.

Requests for Transfer of Student Records from Another School District

All students including homeless students* will be immediately enrolled.

Release of Student Records to Non-School Recipients

No person, agency, or institution shall have access to a student's records except under the following conditions:

524.1R ARTIFICIAL INTELLIGENCE (AI) TOOL USE

INTRODUCTION

Artificial intelligence (AI) presents significant opportunities to enhance K-12 education by providing innovative tools for staff and students. To ensure the ethical, secure, and effective use of AI within Duluth Public Schools, this regulation outlines guidelines for district staff and students.

APPROVED AI TOOLS

Google Gemini is the primary AI tool authorized for educational use within Duluth Public Schools. This tool has undergone rigorous evaluation to confirm its alignment with district standards for educational value, privacy compliance, and security. Students may have access to additional tools and resources with AI-embedded functionality. The district reserves the right to restrict access to specific AI tools.

Staff may use AI tools other than Google Gemini for productivity and educational purposes. The district reserves the right to restrict specific tools.

ETHICAL USE OF AI

AI tools must be employed ethically and in adherence to the district's acceptable use policy.

Staff and students must be cognizant of potential biases inherent in AI tools and exercise critical judgment when interpreting and presenting AI-generated information or content.

DATA SECURITY

All staff and students must adhere to state, federal, and district regulations governing data privacy and security. **With the exception of staff using the district's protected Google Gemini environment while authenticated with their ISD709 staff credentials, the following restrictions apply:**

- **Data Protection:** The sharing of student and staff personal data with **generative** AI tools is ~~strictly~~ prohibited.
- **Identifiable Information:** Disclosure of any identifiable information, including individuals, locations, or sites, to **generative** AI tools is **prohibited** ~~forbidden~~.

TRAINING AND SUPPORT

The district will provide training to equip staff and students with the knowledge and skills necessary for the ethical and responsible use of AI tools. Staff are encouraged to complete this training prior to AI tool use. Students will learn about responsible use of technology, including AI, through classroom lessons.

Staff and students are encouraged to seek guidance from the Digital Innovation Specialist regarding AI-related questions or concerns.

CONSEQUENCES OF NON-COMPLIANCE

Misuse of AI tools, including breaches of data privacy or ethical guidelines, may result in the revocation or restriction of AI tools and/or technology access. The district may also pursue other applicable disciplinary processes in place for students (see student handbook) and staff.

REGULATION REVIEW AND UPDATES

This regulation will undergo periodic review to incorporate advancements in AI technology and emerging best practices.

By adhering to this regulation, Duluth Public Schools aims to harness the potential of AI while safeguarding student and staff privacy, maintaining ethical standards, and optimizing the learning experience.

NOTE

The initial 2024 draft of this regulation was generated with assistance from Google Gemini.

903R VISITORS TO DISTRICT PROPERTY AND FACILITIES

I. PURPOSE

The purpose of this policy is to establish rules and procedures governing visits to District property and District facilities.

II. GENERAL STATEMENT OF POLICY

The School Board encourages interest on the part of parents and community members in the Districts programs and activities. At the same time the Board recognizes that reasonable restrictions must be placed on visits to District facilities in order to maintain an environment that is safe and conducive to learning and working. The Board has adopted this policy after considering and weighing these and other social, political, economic, and educational factors.

III. DEFINITIONS

- A. "District administrator" means the Superintendent and the Principals of the schools.
- B. "District facility" means any building that is owned, leased, or operated by the District.
- C. "District property" means any real property that is owned, leased, or operated by the District, including, but not limited to, athletic stadiums and athletic fields.
- D. "Parent" means a biological parent, adoptive parent, legal guardian, or conservator.
- E. "School building" means any District facility where a program of education is offered to preschool, elementary school and middle school students.
- F. "Visitor" means any person who enters a District facility during regular school hours, except for the following: enrolled students who are in the facility to attend school, to participate in a school sponsored event or activity, or to attend a meeting of a student-initiated, non-curriculum related group that is recognized by the District; employees who are assigned to work at the facility or are otherwise authorized to enter the facility, and part time employees during their assigned working hours.

IV. PROCEDURES

- A. Visitor Procedures.** All visitors must comply with the following procedures when entering a District facility, unless they are attending an event or activity that is open to the public, such as parent-teacher conferences, a school board meeting, or an athletic contest:
 - 1. Immediately upon entering a District facility, all visitors must report to the administrative office or reception desk. Signage to this effect must be prominently displayed on or near all unlocked doors to the facility.
 - 2. Upon reporting to the administrative office or reception desk, all visitors must sign in to the building and detail the following: print and sign their names, state the purpose of their visit, state the time of their arrival, and state the location of the building in which the visit will occur.
 - 3. Subject to the requirements of this policy, parents may observe their child in the classroom for up to two hours on two occasions per school year. Parents who wish to observe their children in the classroom during the regular school day must schedule the visit at least three (3) school days in advance with the

building principal. A district administrator, building principal, assistant principal, or designee may reschedule or terminate any visit in the event of an emergency or unforeseen circumstance.

4. A district administrator or building principal may impose additional restrictions on any visitor who has caused a disruption in a District facility.
5. A district administrator, the building principal, an assistant principal, or a designee will follow this policy in determining whether or not permission will be granted for a visit to a school building. A district administrator will follow this policy in determining whether or not permission will be granted for a visit to a District facility that is not a school building.
6. If permission for a visit is granted, the visitor will be given a visitor's identification badge stating the visitor's name and the location in the building where the visit will occur.
7. All visitors must wear the issued visitor identification badge in a conspicuous location at all times while in a District facility.
8. If a school employee sees a visitor in a school building without a visitor's identification badge, the employee must either escort the visitor to the administrative office or immediately notify the administrative office of the presence of the visitor.
9. Upon completing a visit, a visitor must return to the administrative office or reception desk, return the visitor's identification badge, sign his/her name on the same form that was signed upon entering the building, and state the time of his/her departure.

B. Parent/Guardian Procedures for Communicating with Children. The District recognizes that under limited circumstances parents/guardians may occasionally need to communicate with their children during the school day. When this need arises, parents must follow one of the following procedures:

1. Parents/guardians may call the office and ask to speak with their child. School staff will then locate the child and instruct the child to come to the office to speak with the parent by telephone. Students generally will not be permitted to place or receive a call from a classroom.
2. Parents/guardians may enter the administrative office of a school building and ask the office staff to call their child to the office. School staff will review the students Infinite Campus record to verify that parental rights have been terminated or the parent/guardian does not have physical custody or visitation rights during the school day or the period of time when the parent/guardian wants to visit. Parents/guardians may not go directly to a classroom or to any other location in a District facility without complying with the Visitor Procedures stated in this policy.
3. Students will not be permitted to make calls or receive calls on personal cell phones.

C. Administrative Procedures in Response to Inappropriate Conduct. District administrators, building principals, assistant principals, and designees are encouraged to take the following steps when a visitor violates this policy or engages in any other inappropriate conduct:

1. Notify the offending visitor that his or her conduct is inappropriate.
2. Notify the offending visitor that if the conduct does not cease immediately, the visitor will be required to leave the building, grounds, or event.
3. Notify the offending visitor that he or she is required to immediately leave the building, grounds, or event.
4. Contact law enforcement.
5. Document the incident and send notification to district administration and the Health and Safety Coordinator.
6. Take other action that the district administrator, building principal, assistant principal, or designee reasonably deems to be prudent or necessary in order to: (a) protect the safety of students, staff, or school property; (b) maintain an environment that is conducive to learning and working; and (c) maintain an environment that is free from all forms of abusive and disruptive conduct.
7. Any step or steps of this procedure may be skipped or addressed at a later time if the district administrator, building principal, assistant principal, or designee determines, in the exercise of his or her professional judgment, that immediate removal of the offending visitor is in the best interests of the students or the staff.

V. RULES OF CONDUCT FOR VISITORS

- A. Required Conduct.** All visitors must demonstrate respect and civility when interacting with other individuals during a visit. In addition, all visitors must immediately comply with any and all lawful directives given by a District employee, including a directive to leave the building.
- B. Prohibited Conduct.** Visitors must not do any of the following during a visit:
1. Violate any law;
 2. Violate any District or school policy, regulation, rule, or procedure;
 3. Make any threat or engage in any threatening or intimidating behavior;
 4. Engage in any conduct that is designed to intimidate another person or that could reasonably be perceived as being designed to intimidate another person;

13. Create or participate in creating a disruption to the learning or working environment. Examples of disruptive behavior include, but are not limited to, using a raised voice, shouting, or yelling; swearing; talking with a teacher, classroom aide, or a student while observing in a classroom; using or allowing a cellular device make noise in the classroom; and engaging in other conduct that interrupts a lesson while observing in a classroom.

**NOTE: This policy may not be construed to limit the ability or right of any person to file a complaint in accordance with any law or District policy governing the filing of complaints.*

VI. GROUNDS FOR DENYING A REQUEST TO VISIT

A. Parent/Guardian Visits for Purpose Other than Classroom Observation. A district administrator, a building principal, an assistant principal, or a designee may deny permission for a parent/guardian to visit any part of a District facility if the district administrator, the principal, the assistant principal, or the designee determines that:

1. The parent/guardian has refused or failed to comply with any part of this policy;
2. The parent/guardian violated any rule or procedure of this policy while visiting a District facility on a prior occasion during the school year;
3. The requested date or time for the visit is educationally inappropriate or inconvenient;
4. The parent/guardian has created a disruption during a prior visit and is likely to create a disruption if permitted to visit again;
5. The parent/guardian's presence in the District facility is not in the best interests of student or staff;
6. The parent/guardian presents a risk of harm to a student, to a staff member, or to District property;
7. The parent/guardian's parental rights have been terminated or the parent does not have physical custody or visitation rights during the school day or the period of time when the parent wants to visit the District facility; or
8. The parent/guardian's actions or words suggest that the parent is impaired from using alcohol or another chemical.

B. Classroom Observations by Parent/Guardian. A district administrator, the building principal, an assistant principal, or a designee may deny a parent/guardian's request to observe his or her child in the classroom, or may revoke permission for such a visit, if the district administrator, principal, assistant principal, or designee determines that:

1. Any of the reasons for denying a visit in Section V(A) of this policy have been met;
2. The parent/guardian has failed or refused to schedule the classroom observation in advance;
3. The parent/guardian observed in the classroom on a prior occasion during the school year and created a disruption;
4. The requested date or time for the observation is educationally inappropriate or inconvenient, such as when a test is being administered, when a substitute teacher or guest speaker is present, or when students are attending an assembly or going on a field trip;
5. The parent/guardian has already observed the child in the classroom on two occasions during the school year;
6. The parent/guardians presence in the classroom is not in the best interests of the student, other children, or staff.

C. Classroom Observations by an Independent Examiner. If the parent/guardian of a special education student requests an independent educational evaluation (IEE) or hires an independent examiner to evaluate a child, and the parent/guardian requests that the independent examiner be permitted to observe the child in the classroom, the District will allow the independent examiner to visit and observe the student in the classroom to the extent permitted by law, provided that the independent examiner complies all provisions of this policy and does not create a disruption. The District may assign a staff member to accompany an independent examiner during all observations. An independent examiner may not interview any students at school or any District employees without prior written permission from the District. A District representative will be present during any interviews.

D. Parent/Guardian's Right to Appeal. If a parent/guardian believes that a request to visit a District facility has been improperly denied, the parent/guardian may submit a written appeal to the Superintendent. The decision of the Superintendent, or a designee of the Superintendent, is final.

E. Visits by Third Parties. A district administrator, a building principal, an assistant principal, or a designee may, as he or she sees fit, deny a visitor's request to visit any part of a District facility if the visitor is not a parent/guardian of a child who attends school in the facility.

VII. PARKING

During school hours, visitors must park their vehicles in spaces designated for visitors. Vehicles that are parked in unauthorized spaces may be towed to a different location at the vehicle owner's expense or an immobilization device will be attached to the vehicle, to be removed at the expense of the owner or operator.

VIII. PENALTIES.

Permission to be in a District facility is conditioned upon compliance with this policy. Pursuant to Minnesota Statutes section 609.605, subdivision 4, any person who violates this policy may be found guilty of a misdemeanor. Such persons may be detained by the school principal or a person designated by the school principal in a reasonable manner and for a reasonable period of time pending the arrival of a law enforcement officer. In addition to imposing other consequences specified in this policy, a district administrator, building principal, or assistant principal may issue an order prohibiting a person from entering onto school property.

3187R INTERNET USE REGULATIONS

These regulations pertain to the use of District and personal technology resources while on school property, in school vehicles and at school sponsored activities, as well as the use of District technology resources via off-campus access.

A. Appropriate Use of Technology Resources for Students

(1) Introduction

The Duluth Public Schools is pleased to offer students access to District computers, communications systems[†], the Internet and an array of technology resources to promote educational excellence. Each student is responsible for his/her use of technology, whether personal or District provided. While using District and personal technology resources on school property, in school vehicles and at school-sponsored activities, as well as using District technology resources via off-campus access, each student must act in an appropriate manner consistent with school, District, and legal guidelines in this limited forum. It is the joint responsibility of school personnel and the parent or guardian of each student to educate the student about his/her responsibilities and to establish expectations when using technology.

(2) Using the Internet and Communications Systems[†]

District technology resources are provided to students to conduct research, complete assignments, and communicate with others in furtherance of their education.

- (a) Access is a privilege not a right; as such, general rules of school behavior apply.
