

SUMMER SCHOOL COMPENSATION

BEGINNING FOR THE SUMMER OF 2014

	Hourly rate
Teachers	\$25
Supervisors	\$15
Assistants	\$8 *

Teachers: Compensation rate includes prep time per each hour worked. This is for Academic & Enrichment summer school classes and Your Recreation Directors. (Not athletics such as-camps-weightroom, etc.)

Supervisors: This is activities like camps and duties that require a teacher certified person on site for which we get summer school minutes but is not directing or coaching an active summer team.

Assistants: This category is for anyone who is helping the main teacher and is not doing planning or is not a certified teacher involved in an activity.

*Assistants may be offered hourly rates that are different than the base hourly rate as approved by the administration.

In the event that a class is scheduled less than a full hour block, the formula for any position is as follows: Hourly rate x (minutes of class/60) = Compensation

Example for a teacher – teaching a 45 minute class for 5 days:
 $\$25 \times ((45 \times 5) / 60) = \93.75
