RE: Jackson Center Presentation

Each year, we value the opportunity to share with the Board of Education the programming available at one of our non K-12 schools. This year, we would like to request that the staff and leadership at Jackson Early Childhood Center share the outstanding services and educational options they provide to our earliest LPS students in the preschool, child care and Young 5's classrooms. I would like to request this item be placed on the April 13, 2015 Board of Education meeting agenda. Additionally, Jackson would serve as the host location for our meeting.

Thank you for your consideration.
