

AGENDA

ITEM

SUBJECT: Consider Approval of the Targeted Improvement Plans for Graham Junior High School and Graham Elementary.

RATIONALE:

As you are aware, resulting from performance on the STAAR Graham Junior High School received the Comprehensive Identified label and Graham Elementary received the Targeted Support label. With this label certain mandates are required for the junior high campus including study/implementation of the Effective School Framework and creation/submission of a Targeted Improvement Plan to the Texas Education Agency. The decision was made to have Graham Elementary complete the same steps as the junior high campus minus the submittal to the Texas Education Agency.

Enclosed are copies of the Targeted improvement Plans for GJHS and Graham Elementary.

RECOMMENDATION:

I recommend the approval of the Targeted Improvement Plans.
