## BACKGROUND INFORMATION

The District is required to submit a Board approved Six Year Capital Improvement Plan when requesting major maintenance funding from the Department of Education.

The administration is currently not planning to submit a request for major maintenance funding due to the low balance in the Capital Fund for matching funds; however, it is appropriate to keep this list updated to inform the Board and the public of future projects, and to provide targets for saving for the 30% state-required match for any funded projects.

## ADMINISTRATIVE RECOMMENDATION

The administration recommends approval of the updated Six Year Capital Improvement Plan.

**Sample Motion: I move to approve the updated Six Year Capital Improvement Plan.**
