

Hallsville ISD Department of Special Education

Director: Amy Collins

Update for November School Board meeting:

- 1.) We are working with TVAH on our final submission for the Corrective Action Plan that was implemented as a result of the cyclical monitoring review this past spring. We will submit folders to TEA this Friday and patiently wait on their response. This should be our final step in the process.
- 2.) We continue to meet weekly to support structured learning classroom teachers and students. We include all of the providers and collaborate on supports and services needed in real time to support these settings.
- 3.) I want to extend a formal “thank you” to our school board members for approving a special education playground for our North Elementary structured learning students!
- 4.) We will highlight our speech therapy team in the November district wide newsletter. We have a talented group of speech therapists and I want to highlight these ladies and their contributions to our district!
