

JEFFERSON ELEMENTARY

3rd Grade Amplify

Learning About Light

Students conducted experiments using flashlights, wax paper, cardboard, aluminum foil, and plastic wrap. Students predicted what would happen to the light when they shined it on the different types of material. They worked in groups to conduct their experiments and recorded data in lab notes.

Donation Drive

Students are donating food, hats, and gloves to spread holiday cheer and make a difference in our community! Thank you to Nurse Sara and Mrs. Wolf for organizing this drive!
