Thank you La'Nell. One more quick question.

Can you provide more information on the consumer price index cost changes or point me to where my board and I can better understand?

Thank you,
Risteen

Hi Risteen,

Dues for school districts and education districts are based on ADMr as reported by ODE on Dec. 31 of the preceding year. The proposed dues increase uses a phased approach that would result in members who are currently paying more than \$1,500 annually to experience an increase of 15% annually for five consecutive years beginning in the 2025-2026 fiscal year. For members who are below this floor, dues will increase \$250 per year until the floor is reached. The proposal sets a \$1,500 minimum and a \$25,000 maximum dues rate per fiscal year. Beginning in the 2030-31 fiscal year, the proposal also allows for annual dues increase to be based on a percentage in alignment with the Consumer Price Index.

The best way to determine how this will affect large and small districts is through the [schedule](#) that is provided in the resolution.

Sincerely,

La'Nell

<p>Hello,</p> <p>I'd like to get some additional information for my board. For resolution 1 (https://www.osba.org/wp-content/uploads/Resolution-OSBA-Dues-Schedule-Amendment-Final.pdf) we're getting conflicting information. Some feedback coming in is that there is a change per student by percentage, but then there is the increase set in the link based on ADMr. Overall, can you share with me by percentage how this resolution will impact small districts vs larger districts. I'd like to better understand this from OSBA to share with my board.</p> <p>Risteen Follett Alsea Board Chair</p>
