RE: Recognition of Alyssa Perales

I would like to request that Alyssa Perales, a junior at EPHS be recognized at the next regular school board meeting. Alyssa advanced in a national Teen Film Competition with a music video she animated with skills obtained from CTE Audio/Video courses. Alyssa's film was presented on the silver screen in New York City along with a select few A/V students from across the nation that had advanced. In agreement with EPHS and EPISD's mission statement, we believe Alyssa is a prime example of what a global citizen that herald's her own success looks like and we would like to take this time to acknowledge her.

Please call me should you need additional information.
