Separate figures for Alaska and Hawaii reflect Office of Economic Opportunity administrative practice beginning in the 1966–1970 period. The Census Bureau, producer of the primary version of the poverty measure (the poverty thresholds), does not produce separate figures for Alaska and Hawaii. Before 1983, the guidelines shown are for nonfarm families only.

a. The guidelines are effective from the date of issuance (unless otherwise specified by a particular program using them).

b. Add this amount for each additional family member. Before 1973, increments between some of the smaller family sizes differed from the increment shown in the table. Beginning in 1973, the increment is the same for all family sizes in each year's set of guidelines.
