- 2) Our orientation speakers were outstanding – we heard very good reviews from both groups for Jamie Vollmer and Leroy NotAFraid. (much of it was about building relationships and treating people with respect).
- 3) I have been able to visit food service, transportation, maintenance, special education, the annex, and all in town schools. I have had Breakfast at KW, lunch at KW, BMS, BES, and also visited BES, Napi, KW during lunch. For the morning routines, I have been able to see KW, BMS, BHS, and BES. After school traffic duty by BES.
- 4) We had one fire east of Napi and we did traffic duty for that as well – everyone pitched in for this – thank you to All that helped.
- 5) Ee-kah-ki-maht – all positions will be advertised, with two coordinator positions 1 for K-6 and 1 for 7-12 with a stipend \$6,000 for each, 4 other positions at \$11.50 this will decrease the budget, and at the same time we will enhance it even further with two coordinators. If we find this isn't working or we don't have enough supervision we may add in the future.
- 6) We kicked off Browning High School year by introducing Community members that graduated or went to school in Browning, their title and the year they graduated! I heard many positives from this.
