Preschool Coordinator Report
April 2024
Submitted by: Terry West

Our April focus is getting all paperwork, observations, and assessments done by the May checkpoints deadline! This will be the final assessment of the year. We have caring preschool paraprofessionals and the students are moving forward in all the preschool categories set by the My Teaching Strategies curriculum.

Our playground equipment is ordered and April is going to be a month of purchasing all items on the Early Learning budget.

We enjoyed a fun field trip to Craig at the beginning of May. We went swimming and rollerskating. Our next field trip will be in Naukati. We are headed to a horse farm and each student will be assisted while they ride a horse.

I have been completing a lot of Thread training opportunities for the last few months and some paraprofessionals have completed some, too. Thread will be offering more of these training opportunities for all preschool paraprofessionals.

We are working towards bringing our preschool program into alignment with all the new DEED requirements. By doing this, it will bring more money to the school and most importantly, will provide a higher quality education to our preschooler.

Starting next week, we will be offering free Ages and Stages pre diagnostic screenings for all 3-4 yr olds.
