

## December 2025–District Technology Update December Update

The December update is much the same as the past few months.

I have talked with Denise Willms, the director of the Port Orford Library and they are ready for us to use the Library. I also had a chance to meet with Bill and Keith from Connected Seniors, and they are still very excited to hopefully bring this program to Port Orford and everything on their side is ready to go as well. I have also talked with Aaron and DeAnna about what we need from the district to move forward (An hour and a half of one Day every week including transportation i.e every Friday @ 10 AM - 11:30 AM) and we're waiting on DeAnna to finalize a schedule that would work.

We did a walkthrough with Verkada reps to where we would need/replace cameras at both Pacific and Driftwood. It connects with our vape sensors at the high school and provides us with a streamlined capture of who's involved in the incidents so that we're not spending time sifting through footage and instead time can be focused on dealing with the event.

### **Projects**

Verkada - Cameras and vape sensors

### **Ongoing Projects**

Connected Seniors

Inventory - Deprovisioning Chromebooks & Rotating in new Chromebooks

Working on continuing blocking AI in classroom settings

Updating Web Filtering Policies on Chromebooks/Workstations

Documentation

Microsoft 365 implementation
